**NORTH SIDE MARKET HOUSE
RENTAL COMMITTEE**

(Report to Members of City Council,
City of Pittsburgh, Pa.)

Your Committee having given consideration to the proposed lease agreement with J. R. Hite for storeroom No. 2 in the North Side Market House for a period of five (5) years commencing February 1st, 1941, and ending January 31st, 1946, at a monthly rental of \$766.66 per month, recommends to City Council the approval of this lease. It is understood and agreed that in addition to the rental set forth above, the tenant, J. R. Hite, will pay in addition the cost of all electric current used and consumed in excess of the cost to the City of Pittsburgh of \$125.00 per month.

Your Committee further recommends the approval by City Council of a lease with the Variety Nut Company, a Pennsylvania Corporation, covering a small storeroom located in the North Side Market House in which, for the past five (5) years there has been conducted a general nut store. This lease will provide for a rental of \$60.00 per month plus all electricity and gas consumed on the premises, and will run for a term of five (5) years commencing February 1st, 1941, and expiring January 31st, 1946.

Respectfully submitted,

No. 2222.

January 27, 1941.

President and Members of
City Council,
Gentlemen:

On Bill No. 2084, being an Ordinance providing for the appointment of a Rent Collector in the Department of Lands and Buildings, and fixing the rate of compensation therefor,—I wish to report as follows:

Some time ago, the City of Pittsburgh, the County of Allegheny and the Board of Education, entered into a contract covering matters in connection with the selling of properties for delinquent taxes and the management of such properties when the same are acquired by the three taxing bodies.

Under the provisions of this contract, J. P. Barr is designated as agent for the three taxing bodies to manage the buildings so acquired, and receives therefor 3% commission on the rents collected. I have advised Mr. Barr that this commission belongs to the City of Pittsburgh and he has been turning it over to the City Treasurer.

The number of properties now being managed under this contract has imposed additional burdens on Mr. Barr's staff, and Bill No. 2084 provides for additional help.

It is my opinion that the Ordinance is in proper form, and that your Honorable Body may properly authorize the appointment of such an employee and his payment from the commission collected as above set forth.

Very truly yours,
City Solicitor.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

January 23, 1941.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 2163.

Gentlemen:

At the meeting of the Committee on Public Works, held Thursday, January 23, 1941, the above bill No. 2163 was affirmed subject to a report from the Budget Controller, as to whether the equipment provided for in this bill was a part of the department's request at the time the budget was under consideration for the year 1941.

You are advised that the budgetary details do include cinder spreaders, and that the sum of \$1,800.00 was requested for these items.

This bill provides for the expenditure of \$1,200.00 since the appropriation request of \$25,000.00 for all equipment in the Bureau of Highways and Sewers was reduced to \$15,350.00.

I would recommend this bill be finally passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

In Re: Bill No. 2247.

Gentlemen:

At a meeting of the Committee on Parks and Libraries, held Tuesday, February 4, 1941, Bill No. 2247 was affirmed subject to a report from the Budget Controller, as to whether the items provided for in this bill were contemplated at the time the Budget was under consideration.

The budgetary details indicate that three trucks and one automobile sedan were contemplated when the appropriation was made for 1941, and therefore, would recommend this bill be passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

The Chair took up

Bill No. 2201. Resolution authorizing and directing the Mayor to enter into an agreement with the F. J. Kress Box Company for the sale to said Company of certain property at the intersection of the northerly line of Railroad street and the westerly line of Twenty-ninth street, Pittsburgh, Pa.

Which was read.

The Chair presented

No. 2323.

Pittsburgh, Pa.

February 6, 1941.

Mr. J. J. Sloan, Secretary,
Committee on Finance of Council,
City of Pittsburgh, Penna.

Dear Sir:

Pursuant to the request in your letter of February 5, 1941, we the undersigned, Harold F. Burnworth and E. Herbert Gilg, have made a careful examination and appraisal of the real estate described in Bill No. 2201, and estimate the value of said property as of this date as follows:

LOT: Northwestern corner of Twenty-ninth and Railroad streets fronting 240 feet on Railroad street, by 247 feet in depth.

59,280 square feet at \$1.00 per
sq. ft. ----- \$59,280.00

Steel frame sheet metal
building, 190x240 ----- 4,500.00

Total appraised value as of
Feb. 6, 1941 -----\$63,780.00

RECENT HISTORY OF SITE

By Ordinance No. 433, approved December 12, 1936, O. B. 47, Page 553, the Council of the City of Pittsburgh agreed to purchase a total area (of which the above property is a part) amounting to 253,912 square feet, for a total price of \$375,464.00, or at the rate of \$1.48 per square foot. At that time the consideration included the steel frame building above mentioned as a useful improvement to the property. A considerable portion of the purchase price included delinquent taxes.

The avowed purpose of buying this property was to build a central warehouse for the City of Pittsburgh. Sometime later the idea was abandoned, and the location now contains a municipal garbage incinerator, and a large garage for storage of the City vehicles used in the collection of garbage and rubbish.

At the time the garage building was completed, it had definitely restricted the use of subject property by separating it from the B. & O. Railroad, which extends along the river bank, and in addition, whether founded in reason or not, had burdened the subject property with the stigma of being located on a street opposite the garbage incinerator.

The steel frame structure, now on the property, cannot be used in its present condition, and your appraisers estimate the sum of at least \$20,000.00 to make it wind and water-tight, and we call your attention to the fact that the City of Pittsburgh considered the repair of the building for garage purposes, which consideration was abandoned when the minimum estimate for such purpose was \$80,000.00. The need for structures of this type in this district for future use is speculative.

COMPARATIVE SALES AND ASKING PRICES IN THE NEIGHBORHOOD

Values in this general district have been declining and a vast quantity of vacant land, much of which enjoys riparian rights, is now for sale along the river front and served by two railroads.

A survey of all the sales that have been made in the district within the past five years, indicates a general value

of similar property to be \$1.00 per square foot. We submit that the major portion of the property, which the City of Pittsburgh purchased in 1936 for the municipal warehouse, was purchased at about \$1.00 per square foot. Evidence has been presented to us that the surplus of \$1.00 per square foot for this one parcel was allocated to improvements on the property at the time it was bought by the City.

CONCLUSION

On the basis of our judgment, taking the facts of the neighborhood and the facts of the ownership into careful consideration, we believe the fair market value of the land to be \$59,280.00 and the building \$4,500.00, or a total of \$63,780.00.

Respectfully submitted,
HAROLD F. BURNWORTH,
E. HERBERT GILG,

Appraisers

Which was read.

Mr. Evans arose and said:

Mr. President:—I wish to present some facts in connection with the consideration of this resolution. It has been reported, and truly so, that the concern that proposes to purchase this property has an order from the United States Government to furnish paper cartons in the Defense Program. As you all know this concern operates a box factory. It is urging that the sale be expedited as rapidly as possible. I don't know whether the recommittal of the resolution to the committee for further consideration would seriously delay the company from filling the Government order or not. I am not in a position to say that. I do know, however, that the company is anxious to close the deal and if we delay action on the resolution for a week we may lose the sale.

I also wish to submit for the record, a certain newspaper last week, in reporting the remarks made by me in committee in connection with this bill, so reported the same as to create the implication that these remarks were an attack on the integrity of P. J. McArdle, for many years an honored member of this body.

If it is possible for such an interpretation to be given to my remarks, it

certainly would require a strong stretch of imagination. However, I wish to make this public statement, that if such an interpretation were possible that it was entirely inadvertent and unintentional.

I respect and honor the memory of Mr. McArdle and, in the years I was associated with him, regarded him as the best informed member on municipal government.

In the debate on the bill I said that I felt that we paid too much for this property. I am still of this opinion. I was associated with Mr. McArdle when this purchase was made and voted for it, and if it is true that we paid too much for it, I am just as responsible as he was for the error.

As I said before, I am afraid that we may lose this sale if we hold up action on the resolution too long. I don't know. For that reason I will vote against the motion.

Mr. Weir arose and said:

Mr. President:—My reason for moving to have this resolution recommitted to committee for further consideration is not to stop the sale. I wish to find out more about it. It was impossible to comprehend the recommendations by reading the appraisers' report. I want more time to digest their recommendation before I will vote on the resolution.

If it is pressed for passage today, I will vote against it. I don't want to stop progress. I understand the buyer will engage a larger number of employees than he has at present. I want it thoroughly understood that I am in no way opposed to this resolution. However, I want to make sure that the City of Pittsburgh receives every nickel that the property is worth.

Mr. Evans said:

Mr. President:—I might call attention to the fact that if we lose this sale goodness knows when we will get a buyer. This property will immediately go on the tax rolls, and \$2,400.00 will be paid each year to the taxing bodies. There are plenty of properties to be sold in this neighborhood for less than \$1.00 a square foot.

Mr. Kilgallen arose and said:

Mr. President:—I tried some tax assessment appeals in Court before I came

to City Council, and no matter what any newspaper might report, I say that \$1.00 a square foot represents a little more than the market value of this property.

M. Weir said:

Mr. President:—There has been a lot of discussion about this particular piece of property and a number of newspaper items have been printed concerning it. In a hasty reading of the report from the appraisers, I find that the City paid \$1.48 a square foot. I am certain that is about what the City paid for it. It so happens that on this particular piece of property proposed to be sold it erected a steel frame building which has raised the price of the property per square foot from \$1.00 to \$1.48. The building may not be worth more than \$4,800.00, and my curbstone opinion is, that it is not worth more than that amount. Therefore, I want to familiarize myself more thoroughly with the situation and find out first-hand what the purchaser intends to do with the building if acquired.

That is my only reason for asking that this resolution be recommitted to committee.

Mr. Weir moved

That Bill No. 2201 be recommitted to the Committee on Finance.

Upon which motion the ayes and noes were ordered taken, and being taken were:

Mr. Gallagher moved

That the bill be recommitted to the Committee on Finance in order that a hearing may be given.

Which motion prevailed.

Also

Bill No. 2201. Resolution authorizing and directing the Mayor to enter into an agreement with the F. J. Kress Box Company, a Pennsylvania corporation, for the conveyance of all the City's right, title and interest in certain property located at Railroad and Twenty-ninth streets, for the sum of \$59,280.00.

In Finance Committee, February 11, 1941, read and ordered returned to Council with an affirmative recommendation, subject to report from Mr. Weir.

Which was read.

Mr. Weir arose and said:

Mr. President:—I was appointed a committee of one to investigate this matter. I did not contact Mr. LeClere, President of the Kress Box Company, because he was out of the city. I did see Mr. Benjamin. We went over the property involved, and he said that his

firm had no use for the building. When you say building, there is one bay directly adjacent to the Kress Box Company, and there are two larger bays and higher.

From my observation, I found some very fine steel in this building. It didn't look so good because the sheeting has deteriorated, and whatever windows were in the building were broken. The main structure is there and in good condition. There are some fine columns and trusses that might be worth something, although the representative of the Kress Box Company said it was not worth anything, except that they would use this bay adjacent to their property in which to store certain materials. It wouldn't require much money to repair this building for the storage of some of the material used in the manufacture of boxes. There are a number of Belgian block stored there, and the Kress Box Company said it had agreed with the Director of the Department of Lands and Buildings to remove these Belgian block from the two larger bays, because they were only stored there temporarily.

I made inquiries about the price of this property, and learned from one of the leading real estate men in the City that eight properties had been sold in that vicinity recently, and with one exception none of them sold for more than \$1.00 per square foot. Some of them had good buildings, but nothing was charged for the building.

However, Mr. President, I am a little reluctant at this time to report as one member of Council in favor of disposing of this property at the price offered. I think on account of the publicity that has been given the sale of this property, and on account of the money involved, that no one councilman should be saddled with the responsibility of reporting back to Council whether this bill should be approved or rejected, or whether or not the property should be sold for the amount offered.

I am going to make a motion that the Chair appoint a special committee of three to investigate and make a report on this bill.

Mr. President, while there has been some talk that if this sale were not shortly consummated, the Company may

not go through with the deal. I do not believe that. I believe they are anxious to get the property, and will not rescind their offer, no matter how much time we take in Council to consider the matter.

Therefore, I make this motion in good faith, that the Chair appoint a special committee of three; and since the members of Council are going to St. Louis for a couple of days, the councilmanic committee could view the property tomorrow and probably Mr. LeClere will be there to discuss the matter with the committee. I want to be relieved of the responsibility of recommending the approval or rejection of this offer.

Mr. Weir moved

That a special committee of three be appointed to visit the site and report at a recessed meeting, to be held February 18, 1941.

Which motion prevailed.

The Chair appointed as members of said special committee Messrs. Weir, Wolk and Demmler.

Also, with an affirmative recommendation,

Bill No. 2294. Resolution authorizing and directing the City Controller to transfer the sum of \$1,500.00 from Code Account No. 1443-A-1, Salaries, Regular Employees, Bureau of Police, to Code Account No. 1407, Salaries, Regular Employees, Friendly Service Bureau, Department of Public Safety.

Pittsburgh, Pa.
February 8, 1941.

President and Members
The City Council
City of Pittsburgh.

Gentlemen:

The matter of obtaining industries for Pittsburgh is one of very great importance to the City, and the interest which your body has manifested in the subject is, I am sure, very gratifying to our citizens.

There is, as you are aware, an Act of Assembly dated the seventeenth day of March, 1927, P. L. 45, which provides for a department in the City of Pittsburgh to be known as the Department of City Development.

This is a department which should be constituted and implemented, and should function as a City agency, without cost to the city, in cooperation with extra-governmental organizations working along similar lines.

I have decided to put the Act into effect and am submitting herewith the names of a body of representative citizens so organized as to make it possible, I think, to coordinate the City's efforts with that of private organizations.

I am naming, as you will see from the list, a member of City Council in the person of George E. Evans; one of our Congressional representatives from Allegheny County in the person of Thomas Scanlon; a representative of the Chamber of Commerce in the person of James H. Greene, Executive Vice President of the Chamber of Commerce; a representative of the Commission on Industrial Expansion in the person of Mr. Robinson, its Secretary; and Mr. James P. Kirk, who will represent me personally on the body.

I urge upon you the confirmation of these appointments and earnestly commend to you the Department as an agency through which the City may function in the effort which all of us

are making to bring new industries to the community.

Very truly yours,
CORNELIUS D. SCULLY,
Mayor.

Pittsburgh, Pa.
February 8, 1941.

President and Members
The City Council,
City of Pittsburgh.
Gentlemen:

Please be advised that I have appointed the following to serve in the Department of City Development:

George E. Evans, Chairman, to serve a period of 5 years;

James P. Kirk to serve a period of 4 years;

Thomas Scanlon to serve a period of 3 years;

Charles E. Robinson to serve a period of 2 years;

James H. Greene to serve a period of 1 year.

I will appreciate your confirmation of these appointments at your very earliest convenience.

Very truly yours,
CORNELIUS D. SCULLY,
Mayor.

In Finance Committee, February 11, 1941, ordered returned to Council for action.

Which was read, received and filed.

Mr. Gallagher presented

Mr. Evans also presented

No. 2371.

February 17, 1941.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 2281.

Gentlemen:

At the meeting of the Committee on Public Works, held Tuesday, February 11, 1941, Bill No. 2281, "An Ordinance providing for a contract or contracts for the completion of repair of sewers damaged by explosion, and repaving and improving all affected streets in the Homewood District," was affirmed, subject to a report from the Budget Controller, as to how much work was done under the emergency contract to restore the sewers in the Homewood District and how much work is to be done under contract to complete the repair of the sewers and repaving of streets affected by the exploded sewers.

The amount of work originally contemplated for the reconstruction and repair of sewers damaged in the Homewood District by explosion and considered an emergency has not been entirely completed although the funds in the sum of \$95,000.00 appropriated as an emergency have been expended. It would require approximately an additional sum of \$6500.00 to complete all the work originally contemplated under the emergency, however, the balance of the emergency work and the additional damaged sewers, which was to be done later by contract, can now all be done by contract.

The work not completed as originally planned as part of the emergency includes the abandonment of the 24 inch parallel brick sewer on Kedron street between North Lang avenue and North Murtland street and the extension and connection of all house laterals on the

southerly side of Kedron street to the new 54 inch reinforced concrete sewer on the opposite side of the street, and also, the construction of 380 feet of 30 inch reinforced concrete pipe sewer on Hermitage street between North Homewood avenue and Sterrett street. These items amount to approximately \$6500.00, which was contemplated to have been done under the emergency appropriation.

It is estimated it will cost approximately \$23,655.00 to complete all sewer work, which includes the following items:

380 Lineal Feet of 30" R. C. Pipe
Sewer
550 Lineal Feet of 42" R. C. Pipe
Sewer
124 Lineal Feet of 54" R. C. Pipe
Sewer
45 Lineal Feet of 60" R. C. Pipe
Sewer

In addition to the completion of the sewers, it is proposed that the streets damaged by explosion be repaved at an approximate cost of \$42,500.00. This repaving would include bituminous surfacing on a stone base for that part of Kedron street between Murtland street and the Westinghouse Athletic Field. This is the same type of paving that was originally constructed.

It is proposed that the entire pavement on Kedron street, North Lang avenue and Hermitage street between Murtland and North Homewood avenue be repaved with a concrete pavement including new curbing and that the pavement on Hermitage street between North Homewood avenue and Sterrett street be patched along the line of the new sewer.

An inspection of these streets was made and I am of the opinion that these streets outlined must be entirely repaved as recommended by the department.

This ordinance before Council provides for a contract or contracts for the completion of repair of sewers damaged by explosion and for the improving of affected streets in the Homewood District at a cost not to exceed \$80,000.00. It is estimated by the department that this work will cost approximately \$73,000.00.

Since all this work is to be done by

contract, bids will determine the actual cost and I would, therefore, recommend that Bill No. 2281 be passed.

Respectfully yours,

RICHARD NEFF,
Budget Controller.

Which was read, received and filed.

And the bill as read a second time was agreed to.

Leonard	

When the name of Mr. Leonard was called, he arose and said:

Mr. President:—I wish to be recorded as voting AYE on this ordinance, but wish to state for the record that in the future I shall refuse to vote for any ordinance authorizing work of this nature to be done by emergency contract. Work done by this method is too expensive, as has been shown by the two examples recently confronting the City.

I believe on future work of this nature the contract should be advertised in the regular manner as provided by law, and the contract awarded to the lowest responsible bidder. In that way all reputable contractors would have an opportunity to bid on the work, and the City would receive the benefit of competitive bidding.

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Grant Dibert Plan of Lots, from Stanton avenue to McCandless avenue."

In Public Service and Surveys Committee, February 11, 1941, bill read and ordered returned to Council with an affirmative recommendation, subject to report from the Budget Controller.

Which was read.

Mr. Wolk also presented

No. 2373.

February 17, 1941.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 2303.

Gentlemen:

At the meeting of the Committee on Public Service and Surveys, held Tuesday, February 11, 1941, the above bill was affirmed subject to a report from the Budget Controller, "as to whether the City should not be compensated for the property included within the lines of the vacation."

It is proposed by this ordinance that an Unnamed 40-foot street as laid out in the Grant Dibert Plan of Lots situate in the 10th Ward of the City of Pittsburgh, and extending from Stanton avenue through to McCandless avenue be vacated.

This Unnamed street has not been improved and cannot be made accessible through and between the above named two streets because of the difference in elevation.

A new plan has been filed for an addition to the Grant Dibert Plan of Lots and has been approved by the City Planning Commission, which provides for a new 40 foot street, replacing the one to be vacated.

This new street can only serve McCandless avenue since it cannot be constructed through to Stanton avenue. Several houses have been constructed on McCandless avenue in the present plan, and it is proposed to construct additional houses in the adjacent new plan.

I am of the opinion that the City should not be compensated for property within the lines of the vacation, and would, therefore, recommend the bill be passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Which was read, received and filed.

The Chair stated

That the bill would be laid on the table pending receipt of advertising fees.

Bill No. 2201. Resolution authorizing and directing the Mayor to enter into an agreement with the F. J. Kress Box Company, a Pennsylvania Corporation, for the conveyance of all the City's right, title and interest in certain property located at Railroad and Twenty-ninth streets, for the sum of \$59,280.00.

In Council, February 17, 1941, read and a special committee of three (consisting of Messrs. Weir, Wolk and Demmler) appointed to visit the site and report at a recessed meeting, to be held February 18, 1941.

Which was read.

Mr. Weir moved

That Bill No. 2201 be recommended to the Committee on Finance for further consideration.

Mr. Weir said:

Mr. President:—The reason for asking the recommitment of this bill to the Finance Committee is the fact that your special committee, consisting of Messrs. Demmler, Wolk and myself, visited the property this morning, and called on Mr. LeClere, President of the F. J. Kress Box Company.

We discussed several things with him (which it will not be necessary to explain to Council now); we can do it better in committee, and after it is talked over in committee, perhaps we can reach a favorable decision, and return the bill to council with an affirmative recommendation, subject to certain restrictions. However, these things can be discussed at length in committee today. It will be satisfactory to the Kress Box Company to delay action for a week.

And the question recurring on the motion, That Bill No. 2201 be recommended to the Committee on Finance for further consideration.

Which motion prevailed.

Mr. Evans, at this time, asked leave and presented

In Finance Committee, February 18, 1941, ordered returned to Council with an affirmative recommendation subject

to report from Mr. Duff.

Which was read.

Mr. Duff arose and said:

Mr. President:—This bill was ordered returned to Council with an affirmative recommendation by the Finance Committee subject to a report by myself.

Upon consultation with the City Solicitor I find that the accident causing the death of Raymond Nelson was attributable to the erection of a light pole, under license from the City of Pittsburgh, at a dangerous position on Saw Mill Run boulevard.

Our Supreme Court has held that where an obstruction in a city street is permitted by the city, the city is jointly liable with the person for any damages sustained by the maintenance of the obstruction.

Therefore, the city would be jointly liable with the Duquesne Light Company for the damages occasioned by the death of Raymond Nelson, and the bill contemplates a contribution of \$2,500.00 on the part of the City and a contribution of \$2,500.00 on the part of the Duquesne Light Company, in settlement. I therefore recommend the passage of the bill.

Mr. Demmler moved

Main street -----

with my signature affixed, I feel compelled to give City Council a full statement of Mayor Scully's attitude on this matter as expressed the week prior to the accident which now prevents him from communicating with you directly.

While indicating his general approval of the State Highway Department's proposed high level route for the location of Saw Mill Run boulevard between the Banksville Circle and the West End Bridge, Mayor Scully intended to recommend to City Council that the people of the West End be given assurance that two matters of vital concern will be given attention as soon as circumstances permit:

1. The realignment and confinement of Saw Mill Run by masonry or concrete work from the Banksville Circle to the West End Bridge Traffic Circle;
2. The widening and realignment of streets in the Saw Mill Run Valley to afford better access to and from the West End Business District.

Both recommendations have the added support of the City Planning Commission in the report submitted to your Honorable Body on this improvement.

In the absence of Mayor Scully may I suggest, therefore, that City Council take whatever action is appropriate to assure the people of the West End that the City is aware of their local problems and will deal with them as soon as possible.

Very truly yours,

WILLIAM ALVAH STEWART,
Deputy Mayor.

Mr. Duff presented

No. 2536.

March 12, 1941.

President and Members,
City Council,
City of Pittsburgh.
Gentlemen:

In Re: Bill No. 2477.

At the meeting of the Committee on Finance held Tuesday, March 11, 1941, Bill No. 2477, "An Ordinance for a warrant in favor of the Allegheny Garbage Company in the sum of \$20,000.00 for services rendered during the 30-day period ending February 27, 1941," was affirmed subject to a report from this office, as to whether the price bid for the ten month contract beginning March 1 and ending December 31, 1941, was in conformity with the understanding that the price of \$18,000.00 per month for period of sixteen months would prevail.

The Contractors bid of \$168,000.00 for ten month period is in conformity with the above understanding and this sum of \$168,000.00, together with \$120,000.00 already paid from September 1940, to February 1941, inclusive, will amount to \$288,000.00, which is equivalent to sixteen months service at the rate of \$18,000.00 per month.

I would recommend this bill be passed.

Respectfully yours,

Richard Neff,

Budget Controller.

Which was read, received and filed.

MOTIONS AND RESOLUTIONS

Mr. Gallagher presented

No. 2541. WHEREAS, The custom prevails in the City of Pittsburgh of making leases for dwelling houses and apartments to expire on April 30th; and,

WHEREAS, Such custom results in general removals by tenants within a limited period, causing traffic congestion, overtaxing of facilities for moving household goods and preventing the City from enforcing its regulations respecting inspection of vacated premises to the detriment of the health of its citizens; and,

WHEREAS, Such conditions imperatively demand correction and the City under its present charter possesses no

power to legislate in respect thereto; Now, Therefore, be it

RESOLVED, That the General Assembly of the Commonwealth of Pennsylvania be requested to enact such legislation as will provide for the so-called staggering of leases for dwelling houses and apartments in cities of the second class within the Commonwealth, or empower the Councils of said cities to enact legislation of such character; And, be it further

RESOLVED, That a copy of this resolution be transmitted to the President Pro tempore of the Senate, the Speaker of the House of Representatives and to the Governor of the Commonwealth.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Which motion prevailed.

The Chair stated

That Camelia Naffah, Joseph Zaslof, Ellen Chersky and Jay Leff, pupils of the Taylor Allderdice High School, representing the Allderdice Adjustment Association, were present, and Council would be pleased to hear from them and answer any questions they might care to ask.

Mr. Leff stated

They were happy to be present and considered the Council session very instructive.

Mr. Gallagher moved

That the Minutes of Council of Monday, March 10, 1941, be approved.

Which motion prevailed.

And upon motion of Mr. Weir

Council adjourned.

Which was read, and upon motion of Mr. Gallagher was recommitted to the Committee on Finance.

Mr. Demmler presented

No. 2575.

March 20, 1941.

President and Members,
City Council,
City of Pittsburgh.
Gentlemen:

In Re: Bill No. 2510.

At the meeting of the Committee on Finance held Tuesday, March 18, 1941, the above bill was given affirmative recommendation, subject to a report from the Budget Controller with reference to the prices of limestone and coal tar.

This bill now before Council for final passage is "A resolution authorizing the expenditure in the sum of \$3,800.00 for the payment of the cost of gas, electric current, miscellaneous services and materials, for the operation of the Asphalt Plant and for electric current for Public Works Garage for the month of April."

In transmitting this legislation to Council, Mr. Croak, Chief Engineer, stated in his letter that among the items involving the expenditure of \$3,800.00, was included one car of coal tar estimated to cost \$1,020.00 and two cars of limestone, estimated to cost \$1,600.00. The cost of one car of coal tar at \$1,020.00 is correct, but the item of limestone, namely, two cars at a cost of \$1,600.00 is incorrect.

Limestone costs \$150.00 per car and \$1,600.00 would be sufficient to purchase eleven car loads.

This material is required to do cold patching and to supply sufficient materials to keep the present "skeleton crew" employed during April.

Five car loads of limestone would be sufficient for the month of April at a total cost of \$750.00, therefore, if Council desires to amend this bill the amount of \$3,800.00 can be amended to read, \$2,950.00, which sum will be more than sufficient to provide for the month of April.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Which was read, received and filed.

Demmler	Kilgallen
Duff	Weir
Evans	Wolk
Gallagher	

Noes:—Messrs.

Leonard O'Toole, (Pres't)

When the name of Mr. O'Toole (Pres't), was called, he said:

I ask permission to explain my vote in relation to two bills—Bill Nos. 2553 and 2509. It seems to me to pass these bills would not only be bad business, but bad sense.

They provide for the payment of certain extra work before there has been a certificate that all of the regular work has been completed and has entitled the contractor to payment in accordance with the contract.

To pay the bill would be bad business in any case, but especially would it be imprudent in the case of the Municipal Hospital

As I understand it, this is in settlement of an uncontested claim, and I think for that reason it would be to the best interests of the City to allow this claim to go to litigation. The excellent work of the Law Department has shown the wisdom of contesting all claims of this nature.

For these reasons, I am going to vote NO on Bill Nos. 2553 and 2509.

Ayes 7. Noes 2.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2550. An Ordinance entitled, "An Ordinance authorizing the City of Pittsburgh to enter into a contract with the Housing Authority of the City of Pittsburgh for reimbursement to the City of Pittsburgh of the cost of the uncompleted portion of the grading of Ammon Playground and work incidental thereto, in connection with Project Pa. 1-2 (Bedford Dwellings) of the Authority, that was not performed by the Housing Authority of the City of Pittsburgh in conformity with an agreement duly entered into therefor by said agencies; providing that said work shall be performed by the City of Pittsburgh and for payment of an amount equal to the said reimbursement in a special fund to be established, to be known as the 'Housing Authority of the City of Pittsburgh Special Ammon Playground Fund,' and prescribing a form of contract with the Housing Authority of the City of Pittsburgh with reference thereto, and authorizing the execution of said contract."

Which was read.

Bill No. 2546. WHEREAS, Pursuant to agreement authorized by Ordinance No. 735 of 1939, John M. McGinnis conveyed to the City of Pittsburgh certain land in the 18th Ward, after paying all County and School taxes thereon under the Abatement Act of 1939, and thereafter complied with other provisions of said agreement in full; and,

WHEREAS, The consideration for such land in the sum of \$19,300.00, instead of being applied to delinquent City taxes at face, under the Abatement Act of 1939, was applied by the City to taxes, penalty and interest, on part of the balance of such land in the 18th Ward, to which John M. McGinnis retained title; and,

WHEREAS, If the aforesaid sum had been applied to the remaining land at face, under the Abatement Act of 1939, the said sum would have been more than sufficient to pay all delinquent City taxes for 1939 and prior years on land retained under said agreement; and,

WHEREAS, Certain sewer liens of the City were filed against part of the land retained by John M. McGinnis and were overlooked in the negotiations leading to the aforesaid agreement; Therefore, be it

RESOLVED, That the proper officers of the City upon payment of the above mentioned sewer lien, together with

penalty and interest thereon, are hereby authorized and directed to exonerate and satisfy of record all delinquent City taxes for 1939 and prior years, assessed against lots in the "Bon Air" Plan, 18th Ward, retained by John M. McGinnis under agreement pursuant to Ordinance No. 735 of 1939, and charge the costs to the City; and further be it

RESOLVED, That upon payment of the sum of \$1035.00, plus the costs of satisfaction, the City Solicitor is hereby authorized and directed to satisfy of record M. L. D. Nos. 17 to 32 inclusive, April Term, 1937.

In Finance Committee, March 25, 1941. read and amended by inserting after the words "officers of the City" the words, "upon payment of the above mentioned sewer lien, together with penalty and interest thereon," and by striking out the words "and further be it, RESOLVED, That upon payment of the sum of \$1035.00, plus the costs of satisfaction, the City Solicitor is hereby authorized and directed to satisfy of record M. L. D. Nos. 17 to 32 inclusive, April Term, 1937," and as amended ordered returned to Council with an affirmative recommendation.

No. 2615.

Pittsburgh, Pa.

March 28, 1941,

Mr. E. W. Lindsay, City Clerk

City of Pittsburgh.

Dear Sir:

The City Planning Commission, at a meeting held March 25, 1941, considered an Ordinance vacating East Diamond street, from East Stockton avenue to East Park way, 22nd Ward, and ordered that this Ordinance be returned to Council with approval.

The Planning Commission recommended further that City Council's attention be called to the fact that the Algon Realty Company's offer of \$1,000.00 for the vacation of this street is equal to an average of twenty cents (20c) per square foot, whereas, the City assessment (1940) on the property on both sides of this street is two dollars and fifty cents (\$2.50) per square foot.

Sincerely yours,

HOMER C. WADSWORTH,

Executive Secretary.

Which was read, received and filed.

Also

No' 2616.

March 28, 1941.

Committee on Public Service and Surveys,
Council of City of Pittsburgh

Attention: Edward W. Lindsay,
City Clerk

Dear Sir:

Subject: Bill No. 2516, An ordinance vacating East Diamond street from East Stockton avenue to East Parkway.

In reply to your inquiry of March 19, 1941, in respect to the above bill, please be advised that we have examined the titles to the property abutting on East Diamond street between East Stockton avenue and East Parkway and find that the Algon Realty Company are the owners of all the property abutting upon the section of East Diamond street proposed to be vacated.

We are, therefore, of the opinion that the Algon Realty Company will be the

only property owner affected by this vacation. We have also determined that the only easement existing in the section of East Diamond street proposed to be vacated other than the city sewer expressly excepted in the bill, is a guy pole, No. 4269, of the Duquesne Light Company situate on the eastwardly line of East Diamond street about 70 feet south of the south line of Parkway. The Duquesne Light Company has assured us that this guy pole will be removed by that company at its expense. The existence of this pole, therefore, constitutes no impediment to the passage of the proposed bill.

In conclusion, we are of the opinion that no property owners other than the Algon Realty Company will be adversely affected by the vacation of East Diamond street between Parkway East and Stockton avenue East, and that there are no utilities or private easements existing in the section to be vacated excepting the sewer expressly considered in the bill. The Duquesne Light Company pole above discussed may in view of the promise of the Duquesne Light Company be ignored.

Very truly yours,

WM. ALVAH STEWART,
City Solicitor.

J. W. Marshall.

MOTIONS AND RESOLUTIONS

Mr. Wolk presented

No. 2851. RESOLVED, That the City of Pittsburgh, in Council assembled, does hereby designate the third Sunday of May of each year as "Citizenship Day" in honor of all who, by coming of age or naturalization during the year, have attained the status of citizenship; and be it further

RESOLVED, That the Mayor of the City of Pittsburgh be empowered to appoint in each year a committee of public spirited citizens to make the necessary arrangements for Citizenship Day ceremonies; and be it further

RESOLVED, That the week commencing the third Sunday of May, in the year 1941, be set aside as "Citizenship Week" not only in honor of those who, by coming of age or naturalization have attained the status of citizenship during the year, but also as a tribute to those men who have enlisted or registered for service in the armed forces of the United States; and be it further

RESOLVED, That the City of Pittsburgh endorses the newly inaugurated course on "Our Democracy" in the public and parochial schools of the County of Allegheny, and hereby authorizes the Citizenship Day Committee, to be appointed by the Mayor, to assist and participate in the County-wide public ceremony to be held on the evening of May 23rd, to the end that same shall be an inspiration not only to all who have already attained the status of American citizenship, but also to our young people who have not arrived at the age of twenty-one.

Which was read.

Mr. Wolk moved

The adoption of the resolution.

Mr. Wolk arose and said:

Mr. President:

We are witnessing the most terrific struggle in all history between those who believe in force, might, power and strength, and those who believe in the dignity of the individual and in the

inter-dependence of human beings. We are observing the most gigantic battle of all time between those who espouse the totalitarian doctrine and those who believe in the Democratic Way of Life. Liberty, freedom and democracy have disappeared from those nations whose people are under the domination of dictatorships. In the few remaining nations, where the democratic ideal still prevails, the onrush of the totalitarian nations which seek to destroy them, leaves the ideals of liberty and freedom in these democratic nations hanging by a thread. Millions of people, not only in these democratic nations but in the totalitarian ones as well, look with envy across the seas to the United States at the Liberty and Freedom which we enjoy and would give everything they possess for the privilege of calling themselves American citizens.

The most priceless thing that we own and enjoy is American citizenship. It is the highest honor and privilege that can be accorded to the young men and women of America.

For over one hundred fifty years the fundamental axiomatic principle of American Democracy has been Government of the People, by the People and for the People. This basic philosophy of Americanism is being challenged. Subversive influences are trying to supplant the ideal of life, liberty and the pursuit of happiness with the totalitarian doctrine that reduces the individual to virtual serfdom.

If we are to preserve our Democratic Way of Life, we must instill into the minds and hearts of our young people from childhood a love for liberty and freedom; we must give to them the knowledge of the real significance of American Democracy; we must make them understand the true meaning of American Citizenship with its duties and obligations, as well as its rights and privileges.

Over 2,250,000 men and women in the United States and over 11,000 in Pittsburgh, and 22,000 in Allegheny County annually reach their majority. The attainment of the right to vote and to participate in affairs of government should be a sacred occasion for reaffir-

mation of the principles and ideals of American Democracy.

In these trying times, every day is appropriate to reaffirm our faith in America and to be thankful for the blessings of American citizenship.

In June, 1939, the City of Pittsburgh ordained that the last Sunday of June in each year be known as "Citizenship Day" in honor of all those young citizens who attained the age of twenty-one during the year. The City of Pittsburgh was one of the pioneer communities of the Nation to set aside a day for this purpose. The movement has spread throughout the Country, and in recognition thereof, last year the Congress of the United States by appropriate Resolution designated the third Sunday of May of each year as "Citizenship Day" and "I am an American Day" in honor of those citizens who attained their majority or who have been naturalized during the year.

In conformity to the Resolution of the Congress of the United States, it is deemed advisable that the resolution of Council enacted on June 15, 1939, be amended so that the observance of "Citizenship Day" shall occur on the third Sunday of May in each year.

In recent months 14,000 students in the public and parochial schools of Allegheny County have been given intensive instruction on our Democracy and the rights, privileges, duties and obligations of American citizenship. These students are competing for University scholarships and the winners will be announced at a county-wide ceremony on the evening of May 23rd.

By reason of the enactment by Congress of the Selective Service Act, thousands of young men in Pittsburgh, and Allegheny County have already registered and others will register upon becoming twenty-one and be subject to call for training and service in the armed forces of the United States. These men are, or will be, called upon to make sacrifices for the privilege of American citizenship.

It is, therefore, believed that at no

other time in our history is it more important to set aside a period to reaffirm our faith in America than now.

And the question recurring on the adoption of the resolution.

The motion prevailed.

Mr. Duff moved

That the following members of Council be excused for absence from Council and Committee meetings:

Mr. Evans on March 12, 17, 18, 19, 24, 25 and 26, 1941;

Mr. Gallagher on April 1, 1941;

Mr. Leonard on March 18, 19 and April 1, 1941;

Mr. Weir on March 10, 11, 12, 18, 19 and April 2, 1941;

Mr. O'Toole (President) on March 10, 11, 12, 17, 18, 19, 24, 25, 26 and April 2, 1941.

Which motion prevailed.

The Chair presented

No. 2652. RESOLVED, That the City Council urge upon His Honor, the Mayor, the propriety of issuing a proclamation requesting all owners of business establishments and places of recreation or amusement, to close the same on Good Friday, April 11, 1941, between the hours of 12 M. and 3 P.M. and calling upon all residents of all creeds to devote those hours to prayer to our common Father that He may grant peace to an afflicted world.

Which was read.

Mr. Wolk moved

The adoption of the resolution

Which motion prevailed.

The Chair announced

The appointment of a special committee, consisting of Messrs. Gallagher, Kilgallen and Leonard, to inquire into the question of compensation for City employes who enter the armed forces of the United States, and to make a recommendation and report.

Mr. Gallagher moved

That the Minutes of Council of Monday, March 31, 1941, be approved.

Which motion prevailed.

And upon motion of Mr. Duff

Council adjourned.

Which motion prevailed.

And the bill was read a second time.

Mr. Duff arose and said:

Mr. President:—The doubt has arisen in my mind that the bill as proposed is not adequate to allow us to use a portion of the money to replenish the accounts from which we borrowed money. I am questioning the propriety of passing this ordinance in its present form.

The Chair said:

If there is any doubt in the minds of any member of Council as to the legality of the ordinance, we can lay it over until other business has been disposed of, and in the meantime we can send for the City Solicitor.

Wm. Alvah Stewart, City Solicitor, appeared at this time.

Mr. Duff arose and said:

Mr. Stewart, the question has arisen as to whether the bill as written will warrant the application of a portion of the funds raised thereby to the reimbursement of accounts from which funds were borrowed to provide for improvements within the general scope of the bill?

Mr. Stewart said:

Well, Mr. Duff, I don't know that I can answer that question without studying the bill. If there is any doubt about its application, it ought to be clarified. I think it is a kind of thing that you cannot pass upon intelligently without studying it. I think you raise a very proper question. It ought to be looked into very carefully.

Mr. Duff said:

Mr. President, it seems to me that the bill should provide specifically for the application of a portion of the funds to reimburse the accounts from which this money was borrowed.

Mr. Evans moved

That Bill No. 2324 be recommitted to the Committee on Finance.

Which motion prevailed.

Also, with an affirmative recommendation,

And the resolution, as amended in Committee and agreed to by Council, was read.

Mr. Demmler moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time. Mr. Evans arose and said:

Mr. President:—I am still in the dark with respect to the amount of money it will be necessary to provide to operate the health clinic proposed by this legislation.

Dr. Alexander of the Department of Public Health, I am sure, will ask for a large increase in his budget to staff the clinic. In addition, nobody knows what it will cost to man the clinic. At the present time it is costing the City \$27.00 a day to pay the wages of engineers to provide light and heat in the buildings.

Under one of the resolutions up for final consideration today, is a proposal to borrow \$10,000.00 from the Firemen's salary account to pay the cost of repairs on the old Municipal Hospital administration building.

Although we are not going to maintain all the buildings at the old Municipal Hospital, I would like to know how much we are going to spend on this clinic. I believe that the subject has not been given sufficient study and an accurate accounting of the expense has not been made.

I am not discouraging the need of a clinic in the Hill District, because I am not prepared to speak on that subject. I believe, however, that if such a clinic were established in the Hill District, it would serve a good purpose. Clinics, no matter where established, serve a good purpose.

Notwithstanding all the favorable comments that have been made, I am still of the opinion that further study should be made with respect to the expense of maintaining such a clinic. We are taking \$10,000.00 from the Fire-

men's salary account and that will have to be returned, and the only way it can be returned is to take it from some other account.

I don't like to estimate the cost of maintaining this clinic, but I think the cost will run two or three times larger than the figures quoted to Council. I want it understood that I am not saying the work of remodeling the buildings cannot be done for \$10,000.00; I say it is only the beginning.

I am still of the opinion that we don't have sufficient information to intelligently vote on these bills today.

For these reasons I wish to be recorded as voting No on Bill Nos. 2522 and 2523.

Mr. Kilgallen arose and said:

Mr. President:—These bills on this project have been receiving our attention for a long period of time. No one can properly say that we have been hasty or premature in any decision that we make today. This matter has been before Council for three separate hearings. It has received considerable discussion in the public newspapers; it has been a common topic of discussion among the citizens and among ourselves; and it has been pending before us for three months. No ordinance, and no subject during my term in Council, has received such serious and long-extended consideration.

It is true that we are borrowing \$10,000.00 from the salary fund of the Bureau of Fire. That has no particular significance. When we need a large sum, it is quite common and quite a routine matter for the Council to borrow from one fund and later pay it back.

The taxpayers of Pittsburgh want us to decide this question on these two considerations. First, is a health clinic needed in the Hill District of Pittsburgh; and second, can the City afford to provide such a service? During our long extended consideration of the project we went far afield on occasions. Mr. President, and discussed and considered many other elements and implications, but the outstanding thing that prompted my sponsorship of the

bill, and the outstanding thing that now prompts my favorable vote, is the not-to-be-disputed fact that such a health clinic is needed. No one, really, seriously disputes this. The clinical features of the health institutions in that part of our city are extremely congested. Only Saturday night I learned of the burden which the clinical department of the principal hospital in that neighborhood is bearing. There is serious congestion and serious need of additional clinical work in this congested area.

The bills which are now before us authorize an expenditure by the City of \$10,000.00. This amount, or the greater part of it, will be needed to place the buildings in shape. Incidentally, Mr. President, the buildings we are going to use are comparatively new, quite substantial and presentable, and are not in anyway dilapidated or shabby.

The personnel needed to staff the clinic will run between \$10,000.00 and \$15,000.00 a year, I think. That to my mind is not an extreme figure for such a worthy project.

I am sure that events will demonstrate the complete worthiness of this project, and that Council will not be reluctant to properly staff it.

I expect some part of the personnel to be volunteer. We have heard from medical men and a prominent medical school that some part of the staff will be volunteer.

Such a health clinic, as we hope to establish, should not be so expensive as health work, which is purely hospital in its nature, requiring meals, nursing, bedding, etc.

Finally, Mr. President, I want once more to repeat that this health clinic is for the people of Pittsburgh. It is not for any race or any creed or any color. It is for all citizens of Pittsburgh, and I am confident that none of the sinister things that were argued against its passage will come true. I am proud to be able to vote for these bills.

Mr. Leonard arose and said:

Mr. President:—I also want to be

recorded as expressing my approval of these bills.

I believe the building can be remodelled for the sum asked for by the Department of Lands and Buildings.

This is not a hospital—it is an out-patient institution to take care of people who visit it for an examination and blood tests. No patients will remain at the clinic overnight; and as Mr. Kilgallen has said, no meals will be served.

It should not be expensive to operate such a clinic.

An out-patient clinic in the Hill District is needed. It will be a place where a person suffering from tuberculosis or any other disease can visit and receive medical advice. It will pay for itself in preserving the health of many people who are reluctant to visit the present clinics for an examination.

Council held several hearings on this subject, and those favorable to the proposal thoroughly explained the reasons why such a clinic should be established, and they convinced me that a health clinic is needed in that district.

At this time, I would like to correct one statement that was made at the last public hearing. At that time Mr. Moss of the Urban League accused Council of insulting the colored race by offering them \$10,000.00 for the clinic. I asked for an explanation from Mr. Moss what he meant by saying that "Council was insulting the colored race," and he refused to answer. Rather than get into an argument at that time, I dropped the matter. However, one of the colored papers took issue with me for not following up my question and not forcing Mr. Moss to explain what he meant by that remark. I didn't want to force him to make answer, which I probably could have done. I don't think Council is trying to insult anybody by passing this legislation. I feel this clinic is for anybody in the City of Pittsburgh who wants to take advantage of it. If white and colored people don't go there, I will be very much disappointed. For that reason I feel it is going to be of some benefit to someone, and no

one will lose by its establishment. And further there is no intention on the part of any member of Council to insult anybody. Council is trying to help the people of our City, especially the under-privileged.

For these reasons, Mr. President, I am going to vote for the bills.

Mr. Gallagher arose and said:

Mr. President, I don't think it is necessary to make any extended remarks why I am for these bills. My mind was made up some time ago. I am in favor of this health clinic because I think it will benefit many of the under-privileged people in the Hill district.

As far as the expense is concerned: an ounce of prevention is better than a pound of cure. The outlay for this clinic will be small. If we can prevent the spread of disease and do something to help the Hill District, we will make it a healthier place for the people to live; and regardless of race, creed or color, the clinic will be taken advantage of by the people of the Hill District.

For these reasons, I am going to vote for the bills.

And the resolution was read a third time and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Demmler	Leonard
Duff	Wolk
Gallagher	O'Toole, (Pres't)
Kilgallen	

Noes:—Mr. Evans

Ayes 7. Noes 1.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 2674.

Gentlemen:

At the meeting of the Committee on Finance, held Tuesday, April 15, 1941, the above Bill No. 2674

"An Ordinance appropriating \$6,848.00 from Bond Fund 136 for engineering and other necessary expenses in connection with Leech Farm Sanatorium,"

was affirmed subject to a report from the Budget Controller.

This ordinance does not accomplish the purpose intended and have called the attention of this fact to the department and they concur in my opinion. New Legislation will be presented at a later date, and would, therefore, recommend this bill be recommitted and laid on the table at the next meeting of the Committee on Finance.

Respectfully yours,

RICHARD NEFF,
Budget Controller.

April 29, 1941.

Committee on Finance,
Council of the City of Pittsburgh.

In Re: Bill No. 2505, Resolution for lease to the Pittsburgh Coal Company for a term of twenty years for tract in Upper St. Clair Township, etc.

Dear Sirs:

We have examined Bill No. 2505 and the Lease proposed to effect its purpose. We have examined the location of the tract proposed to be leased, and are of the opinion that the transfer of title of the Mayview facilities will not be impeded or affected by this Lease. Careful inquiry has convinced us that the area to be leased is of practically no value whatever in relation to the remaining Mayview land and facilities.

We are therefore of the opinion that the Resolution is in proper form and that its passage will have no effect upon

the future transfer of the Mayview facilities to the State government.

Very truly yours,

WM. ALVAH STEWART,
City Solicitor.

Which was read, received and filed.

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Demmler	Kilgallen
Duff	Leonard
Evans	Weir

No. 2841.

May 7, 1941.

President and Members,

City Council.
City of Pittsburgh.

In Re: Bill No. 2775

Gentlemen:

At the meeting of the Committee on Filtration and Water held Tuesday, May 6, 1941, Bill No. 2775, an ordinance amending Ordinance No. 364, approved July 15, 1940, entitled, "An Ordinance providing for contract or contracts for certain repairs, painting and improvements to the water works property of the City of Pittsburgh," was given an affirmative recommendation subject to report from the Budget Controller.

This ordinance merely repeals portion of contract work contemplated to be done under authorization of Ordinance No. 364, approved July 15, 1940, which included among other items, contract for painting water lines on the South Tenth Street Bridge at an estimated cost of \$1,128.68.

The Controller in accordance with the preamble of the Appropriation Bill did not carry over the funds, but encumbered this year's appropriation in the sum of \$1,128.68.

The entire appropriation made this year is needed for repairs contemplated which are more urgent than the painting of water lines on the South Tenth Street Bridge, therefore, I would recommend this bill be passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Demmler	Leonard
Duff	Weir
Evans	Wolk
Gallagher	O'Toole, (Pres't)
Kilgallen	

Ayes 9. Noes none.

And a majority of the votes of Coun-

cil being in the affirmative, the bill passed finally.

REPORTS OF SPECIAL COMMITTEES

Mr. Gallagher, as Chairman of a Special Committee, consisting of Messrs. Gallagher, Demmler and Kilgallen, presented

No. 2842. WHEREAS, In the City of Pittsburgh on Friday evening, May 9, 1941, there was unveiled and dedicated, at Grant street and Oliver avenue, a bronze statue in memory of William Addison Magee; and

WHEREAS, The City he loved and served as Mayor, Councilman, State Senator and Public Service Commissioner, now contains a lasting memorial to his greatness; and

WHEREAS, It is but fitting and proper that his achievements should be permanently inscribed in the official records of the City; Now, therefore, be it

RESOLVED, That the people of Pittsburgh, by action of Council now assembled, do recognize and gratefully acknowledge that William Addison Magee during his public career and through his initiative capacity, knowledge of municipal affairs and attention to duty, accomplished the following outstanding achievements:

The organization of the Department of Public Health; the organization of School Medical Inspection; the organization of the Department of Supplies; the organization of the City Planning Commission; the organization of the Art Commission; the organization of the Shade Tree Commission; the organization of the Board of Water Assessors; the re-organization of the water supply system; the establishment of a health code; the establishment of a building code; the establishment of a traffic code; the establishment of the first free concerts at Schenley Park; the reduction of The Hump (the hilly eminence that caused Grant street to rise inconveniently above the level of the Golden Triangle); the modernization of street lighting; the motorizing of police and fire apparatus; the completion of the Joint City Hall and Court House; the reconstruction of the City's principal sewerage basins; the supplying of pure water to the North Side and West End;

the construction of the Point Bridge, Larimer Bridge and many other smaller bridges; the improvement of the Smithfield Street Bridge and its approaches; the extension of West Carson street, South 18th street and Warrington avenue; the improvement of Baum boulevard, from Craig street to Highland avenue; the widening of Fifth and Oliver avenues, Diamond street, and Cherry and Strawberry ways; the elimination of grade crossings at 33rd Street, Try street, Brushton avenue and Lambert street; the abolition of classification in assessments for taxation; the construction of playgrounds and community centers; the aid extended to the Flood Commission and the Lake Erie Canal project; the original studies given to the problem of smoke elimination, and the introduction of many efficiency methods in civic administration; and be it further

RESOLVED, That, for these accomplishments, and for the betterment of the City that has resulted therefrom, the people of Pittsburgh do make grateful acknowledgment to the capacities and abilities of their great son—William Addison Magee.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Which motion prevailed by an unanimous rising vote.

MOTIONS AND RESOLUTIONS

WHEREAS, Council adopted a resolution on August 10, 1939, authorizing and directing the Director of the Department of Public Works to furnish an estimate of the cost of erecting a drinking fountain in Morrow Park, at Liberty avenue, Baum boulevard and South Aiken avenue, which estimate has not been furnished by the Department; Therefore, be it

RESOLVED, That Council, at this time, renews its request for the estimate referred to above, and asks that the Director furnish it at an early date.

Which was read.

Mr. Kilgallen moved

The adoption of the resolution.

Which motion prevailed.

Mr. Demmler presented

No. 2844. WHEREAS, Act No. 18, approved by the Governor May 1, 1941, provides for the abatement of penalties and interest on delinquent taxes of the City of Pittsburgh under certain conditions, unless the authority levying the taxes rejects the provisions of said Act within thirty days after the effective date therefor; and,

WHEREAS, It is deemed advisable, and for the best interests of the City of Pittsburgh and its citizens, that the provisions of Act No. 18 of 1941, be not rejected; Now, therefore, be it

RESOLVED, It is the sense of this Body, That it approves the provisions of

Act No. 18, approved by the Governor May 1, 1941, and that it does not reject and will not reject within thirty days after May 1, 1941, the provisions of said Act.

Which was read.

Mr. Demmler moved

The adoption of the resolution.

Which motion prevailed.

Mr. Weir moved

That the Minutes of Council of Monday, May 5, 1941, be approved.

Which motion prevailed.

And upon motion of Mr. Duff.

Council adjourned.

MAYOR'S OFFICE

Pittsburgh, May 14, 1941.

President and Members

The City Council,

City of Pittsburgh.

Gentlemen:

I return herewith, unapproved, your Bill No. 1954, because I am advised that the enactment of the ordinance is certain to lead to litigation.

It appears to us that the ordinance contemplates a spot zoning of the area affected, which is illegal under decisions of the Courts of this Commonwealth, particularly the decision of the Superior Court in the case of Huebner, et ux, versus Philadelphia Saving Fund Society, et al.

Very truly yours,

CORNELIUS D. SCULLY,

Mayor.

Which was read, received and filed.

Also

Bill No. 1954. An Ordinance entitled, "An Ordinance amending Zoning Ordinance No. 372, approved August 9, 1923, Zone Map, Sheet Z-N10-E15, by changing from a Commercial District to a Heavy Industrial District, all that certain property bounded by Reed street; the westerly line of lot numbered 37 in the E. P. Jones, Esq. Plan of Lots; La Place street, and the easterly line of lot numbered 36 in said E. P. Jones, Esq. Plan of Lots."

In Council, May 5, 1941, bill read, rule suspended, read a second and third times and finally passed by a three-fourths vote.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?" the ayes and noes were taken agreeably to law and were:

Noes: Messrs.

Demmler	Kilgallen
Duff	Weir
Evans	Wolk
Gallagher	O'Toole, (Pres't).

Ayes none. Noes 8.

And there not being three-fourths of the votes of Council in the affirmative, the objections of the Mayor were sustained, and the bill failed to become a law.

Mr. Evans also presented

No. 2879.

Pittsburgh, Pa.

May 16, 1941.

President and Members of Council,
City-County Building,
Pittsburgh, Penna.
Gentlemen:

I return herewith, unapproved, your bill No. 2246.

I take this action because the objections of the proposed ordinance were disapproved by the Planning Commission of the City of Pittsburgh.

Very truly yours,

CORNELIUS D. SCULLY,

Mayor.

Which was read, received and filed.

Also

Bill No. 2246. An Ordinance entitled, "An Ordinance amending Zoning Ordinance No. 372, approved August 9, 1923, Zone Map, Sheet Z—N20—O, by changing from a 'B' Residence District to an 'A' Residence District, all that certain property bounded by the line of the Commercial District north of Woods Run avenue; a line parallel with and distant 120 feet westwardly from the westerly side of Brighton road; the southerly line of 'Simen Place Addition'; the southerly line of 'Brighton Heights, Harbison Addition'; lots numbered 20 and 5 to 13, inclusive, in the Plan of Lots of The Hrs. of Philip Neuhart, Jr., and Brace way."

In Council, May 5, 1941, bill read, rule suspended, read a second and third

times and finally passed by three-fourths vote.

Which was read.

And on the question "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. Kilgallen arose and said:

Mr. President: I voted to sustain the Mayor's veto on the last bill; but this particular bill is a different kind of ordinance. I am going to vote to override the Mayor's veto.

Mr. Gallagher arose and said:

Mr. President: I want to take the same position as Mr. Kilgallen.

And the question recurring "Shall the bill become a law notwithstanding the objections of the Mayor?" the ayes and noes were ordered taken agreeably to law, and were:

Ayes:—Messrs.

Demmler	Leonard
Duff	Weir
Evans	Wolk
Gallagher	O'Toole, (Pres't).
Kilgallen	

Ayes 9. Noes none.

And there being three-fourths of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

REPORTS OF COMMITTEES

Mr. Demmler presented

No. 2880. Report of the Committee on Finance for May 13, 1941, transmitting sundry ordinances and resolutions to Council.

Which was read, received and filed.

MOTIONS AND RESOLUTIONS

Mr. Gallagher presented

No. 2942. WHEREAS, The City of Pittsburgh has protested the new

rates for domestic use of the Peoples Natural Gas Company, and the matter is still in the hands of the State Public Utility Commission for decision; and

WHEREAS, The Manufacturers Light and Heat Company is selling cheaper coke-oven gas strengthened with natural gas, resulting in a lower basic cost for the gas which it distributes in Pittsburgh; and

WHEREAS, The Manufacturers Light and Heat Company filed on May 2, 1941, a new and higher domestic schedule for about twenty thousand patrons within the City of Pittsburgh; and

WHEREAS, This proposed schedule, "General Service Classification Schedule No. 1," is identical with that of the undecided domestic rate schedule of the Peoples Natural Gas Company, having the same number of blocks, the same quantity of gas in each block, the same charge for each block, the same discount and the same minimum charge, notwithstanding the fact that basic gas costs are less for Manufacturers Light and Heat Company; and

WHEREAS, This rate, "General Service Classification Schedule No. 1," is excessive, discriminatory, exorbitant, unjust and unreasonable, as can be proved in a full, fair hearing on the matters involved; Therefore, be it

RESOLVED, That the Law Department be authorized and directed, in behalf of the City of Pittsburgh, to protest the new tariff proposed by the Manufacturers Light and Heat Company, which will become effective July 2, 1941, unless suspended by the State Public Utility Commission; And, be it further

RESOLVED, That the Law Department be authorized further to request the State Public Utility Commission to exercise its powers under Article III, Section 308 (b), to suspend the aforesaid proposed schedule, "General Service Classification Schedule No. 1" of the Manufacturers Light and Heat Company,

until a full hearing can terminate the lawfulness or lawlessness of this proposed rate.

Ayes:—Messrs.

Demmler	Weir
Gallagher	Wolk
Leonard	O'Toole, (Pres't)

Noes:—Mr. Evans.

When the name of Mr. Evans was called, he arose and said:

Mr. President:—I want to be recorded as voting NO on Bill No. 2920. The ordinance does not provide a uniform wage for all the employees in the Bureau of Electricity. The men working under a foreman will receive a greater salary than the foreman. I think this is an injustice.

Another reason I am opposed to the ordinance is that I think it is ill-advised. Council did not take into consideration that there are a number of employees and groups of employees in other departments requesting an increase in wages. Council, it is true, recognized the demands of some groups for an increase in wages, and one of

these cases is that of the laborers in the Bureau of Highways and Sewers. Another case is that of the employees in the Bureau of Traffic Planning.

Only today Council has received a petition from another group in the Towing Division asking for an increase in wages.

It is my opinion that Bill No. 2920 should have been considered in conjunction with all other requests. The City does not have the money to pay all these increases, and at the end of the year I am fearful that there will be a shortage.

I want it understood, however, that I do not oppose paying an adequate wage to those who work for the City of Pittsburgh; but I think it is time that Council, in view of the financial situation of the City, should sit down and consider all the demands for wage increases before granting an increase to any one particular group or class. I might remind the members of Council that the City does not have the money with which to pay these increases, and at the end of the year there will be a deficit in the wage and salary accounts which the Council will be required to replenish.

For the reasons stated, I am voting against Bill No. 2920.

No. 3047.

June 4, 1941.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 2961.

Gentlemen:

At the meeting of the Committee on Finance held Tuesday, June 3, 1941, Bill No. 2961, "An Ordinance for warrant to D. Dinardo for \$8,422.14 for extra work on Four Mile Run Drainage Basin was affirmed with instructions to the Budget Controller to insert the correct amount to be paid by a reduction of approximately \$140.00 for the item of sheet steel piling."

I have checked the invoice for sheet steel piling and find that the total amount included in this ordinance is correct and that the Attorney for the Dinardo Company had presented the wrong invoice which indicated a reduction of \$140.00.

In accordance with the action of the Committee on Finance, this bill should be passed as written without reduction.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

No. 3104.

June 12, 1941.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bills Nos. 2992 and 3021.
Gentlemen:

At the meeting of the Committee on Finance held June 10, 1941, Bill No. 2992, "An Ordinance appropriating \$387,600.00 for general repaving, improvement of streets, construction of shelter house and for the construction of new boilers and equipment at the Oliver Bath House," was affirmed subject to a report from the Budget Controller.

It was originally estimated by the Department that the construction of two new boilers and appurtenances thereto, for the Oliver Bath House would cost \$13,000.00.

Bids were taken and contract awarded, for all work as originally planned for a sum less than \$10,000.00, therefore, the appropriation of \$10,000.00 is sufficient.

This ordinance is related to Bill No. 3021, also affirmed, which provides for a contract for the repair of Schenley Park Shelter House in the sum of \$2,500.00.

It was originally planned that the shelter house in Schenley Park and shelter house in Olympia Park would cost \$8,300.00 for both.

Bids were taken and it was found that it would cost \$8,300.00 to repair and remodel Olympia Park and was

therefore necessary that an additional appropriation of \$2,500.00 be made for Schenley Park shelter house.

The Department of Public Works claims that due to the rise in prices for materials, it was impossible to construct the buildings under their previous estimates.

I would recommend that Bills No. 2992 and No. 3021 be finally passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

No. 3168.

June 18, 1941.

President and Members,
City Council,
City of Pittsburgh.

In re: Bill No. 3063.

Gentlemen:

At the meeting of the Committee on Finance held Tuesday, June 17, 1941, Bill No. 3063, "An Ordinance supplementing and amending Sections 49-B and 49-C, Bureau of City Refuse, of the Salary Bill, was affirmed subject to a report from the Budget Controller as to whether funds have been appropriated to provide for the provisions of this Ordinance.

You are hereby advised that sufficient funds have been appropriated in three different code accounts, Bureau of Refuse, in the sum of \$27,246.00, to provide for vacations for employes.

This Bill No. 3063 has been presented because of a ruling of the Civil Service Commission that no more employes can be on any one payroll than are provided for and the number specifically set forth in the Salary Bill. This amendment will permit the employment of additional temporary employes, while regular employes are on vacation, thereby increasing the number, but not increasing appropriations already made.

I would recommend this bill be finally passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

Which was read, received and filed.

No. 3169.

June 21, 1941.

Finance Committee of Council.

Gentlemen:

Bill No. 3066, an Ordinance transferring \$20,100.00 from Code Account 1676-3, Wages, was given an affirmative recommendation, subject to the approval of this Department.

Under normal conditions, this Department could not approve the purchase of tires required for 1942 under a 1941 contract. Such a procedure would militate against fair competitive bidding, since the amount covered in the specifications would be doubled.

Since we are advised that, due to the defense situation, there is a shortage of rubber, which will inevitably result in a shortage of tires and thus impair our garbage collections, we are of the opinion that in the interest of making adequate provisions for these contingencies this Bill should be approved.

Very truly yours,

WM. ALVAH STEWART.
City Solicitor.

Which was read, received and filed.

Mr. Weir moved

That the resolution be recommended to the Committee on Finance.

Which motion prevailed.

Mr. Demmler also presented

Mr. Evans moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

President O'Toole called Mr. Wolk to the Chair, and taking the floor, said:

Mr. President:—There is a legal question involved in connection with the payment for the work authorized to be done under this ordinance. I raise that question now in order that I, and perhaps the other members of Council, might be instructed on the legal possibility of what the bill proposes to do. I raise the old, and not unfamiliar, question of the right of the municipality, having undertaken to construct a public work with public funds, has the right to augment the further credit of the municipality to complete that work. The Chairman and the other members of Council will recall an attempt by the City of McKeesport to do something along similar lines after it was found that the money provided by a people's bond issue was insufficient to complete the project, and the Council or the School Board of that city undertook to augment the further credit of that municipality to complete a very desirable project. I am not certain how the litigation wound up, or the legal questions involved, or how it was determined. I think the same question is involved here—in fact, having used the money provided in the people's bond issue on the project, we now undertake to use another bond fund to complete the project. There may be a question of fact involved, as to whether it is a question of the completion of the original project, or the rehabilitation of an old structure, in a legal sense, and not because of its age. Mr.

President, I raise the question so that we may be informed as to its legality before we vote on the ordinance.

The Chair (Mr. Wolk) said:

Mr. O'Toole, do you wish to make a motion requesting an opinion on this ordinance?

President O'Toole said:

Mr. President:—I am just expressing my opinion. I don't have the information. Perhaps the other members have information as to the legality of this proposal. Until I do, I propose to vote against the ordinance.

Mr. Evans arose and said:

Mr. President:—As far as the particular work involved in this ordinance is concerned, there is no haste. It was found after the pharmacy was constructed that it was too close to the boilers. If this job is done now, or ten years hence, it would be the same thing. It is not exactly a new construction or the remodeling of an old building. In that sense, it is my opinion that it is a legitimate item to pay out of this new bond fund. It is public work; it is part of the hospital, in a sense, but not an essential project. It could be left out. It is not adding any space or fixtures; it is just insulating the room. This insulation was found necessary after the room was completed. May I ask whether or not the Law Department has passed upon this question?

The Chair said:

The Law Department has not furnished an opinion on this ordinance.

Mr. Evans said:

Mr. President:—I would not object to sending this bill to the Law Department for an opinion.

Mr. Evans moved

That Bill No. 2816 be laid on the table, and the City Solicitor and the City Controller's solicitor be asked to furnish an opinion as to the legality of the ordinance.

Which motion prevailed.

And President O'Toole resumed the Chair.

Also, with a negative recommendation,

Bill No. 2893. An Ordinance entitled, "An Ordinance amending Zoning Ordinance No. 372, approved August 9, 1923, Zone Map, Sheet Z—O—E30, by changing from a 'B' Residence (U-5) and First Area (A-1) District to a Commercial (U-3) and Third Area (A-3) District, all that certain property bounded by Brown's Hill road; Hazelwood avenue; Beechwood boulevard and Saline street."

Which was read.

Mr. Evans moved

That further action on the bill be indefinitely postponed.

Which motion prevailed.

(Mr. Duff voting No).

Mr. Leonard presented

No. 3237. Report of the Committee on Public Safety for June 24, 1941, transmitting two ordinances to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 3137. An Ordinance entitled, "An Ordinance repealing Ordinance No. 371, entitled, 'An Ordinance providing for the letting of a contract for the furnishing and delivery of one Motor Driven Aerial Ladder Truck for the Pittsburgh City Home and Hospitals, and for the payment thereof,' approved July 15, 1940."

Which was read

Mr. Leonard moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Demmler	Leonard
Duff	Weir
Evans	Wolk
Gallagher	O'Toole, (Pres't)
Kilgallen	

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 3138. An Ordinance entitled, "An Ordinance providing for the letting of a contract or contracts for the furnishing and delivery of 2½ inch cotton jacket rubber lined fire hose and 1 inch cotton jacket hose for the Bureau of Fire, Department of Public Safety, and for payment thereof."

Which was read.

Mr. Leonard moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Demmler	Leonard
Duff	Weir
Evans	Wolk
Gallagher	O'Toole, (Pres't)
Kilgallen	

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

MOTIONS AND RESOLUTIONS

Mr. Gallagher presented

No. 3238. WHEREAS, The care of mental patients throughout the State and the complete costs thereof are now a charge upon the Commonwealth under existing law; and

WHEREAS, The present law provides a saving to the real estate taxpayer of Pittsburgh in excess of \$700,000.00 a year; and

WHEREAS, In consideration of this saving, the City of Pittsburgh has transferred to the State without compensation an institution valued at more than \$12,000,000 and the City continues

to retire the debt incurred for the construction of the institution; and

WHEREAS, In placing the costs of the care of the insane upon the Commonwealth of Pennsylvania, we belatedly followed the example of 43 other states; and

WHEREAS, His Excellency, Governor Arthur H. James, has seen fit to ask the Legislature to amend this legislation in order to restore a major part of these costs upon the City of Pittsburgh, together with the several counties of the State; Now, therefore, be it

RESOLVED, That the City Council of Pittsburgh is unalterably opposed to any modification of existing law which would once more place upon the city any part of the costs for the care of mental patients at Mayview Home and Hospital; and be it further

RESOLVED, That every member of the General Assembly from this city be so advised by telegraph, and that the text of this resolution be sent immediately by telegraph to His Excellency, the Governor; to the Speaker of the House, and to the floor leaders of the Democratic and Republican parties in the House and Senate.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Mr. Gallagher said:

Mr. President:—I just want to say, for the information of Council, that Thursday a week ago, the Mayor, Councilman Kilgallen, Director Klein of the Welfare Department, City Solicitor Stewart, and Mr. Boyle, City Controller's solicitor, and Mr. Shaw of the Welfare Committee of the State Legislature, and myself sat in conference with Governor James, his attorney-general, and Mr. Sweeny, the Secretary of the Welfare Department of the State. Governor James gave the committee the assurance that the City of Pittsburgh had nothing

to worry about. On the opinion of his attorney-general, he told the Mayor and the committee that the State was going to take over the mental institution at Mayview and the City should act as agent and the City should bill the State from that date on. Notwithstanding the fact that Governor James made this promise, the following week he asked the Legislature to amend the law so that the financial burden of operating the mental institution at Mayview would be saddled onto the taxpayers of the City of Pittsburgh. The cost of this maintenance is fixed at \$400,000.00. That is the reason for the introduction of this resolution today. The purpose back of it is to get the members of the Legislature to say that the State of Pennsylvania and Governor James shall live up to their obligations and take over this mental institution.

The Chair said:

May I suggest to Mr. Gallagher that a copy of the resolution be sent to the members of the Legislature from the City of Philadelphia?

Mr. Gallagher said:

It is to be sent to the floor leaders of both parties in the Legislature.

And the question recurring on the adoption of the resolution.

The motion prevailed.

Mr. Weir moved

That the various departments of the City be authorized to observe Saturday, July 5, 1941, as a holiday, keeping a skeleton crew on duty, where necessary, to take care of the official business of the City.

Which motion prevailed.

Mr. Gallagher moved

That the Minutes of Council of Monday, June 23, 1941, be approved.

Which motion prevailed.

And upon motion of Mr. Weir
Council adjourned.

Municipal Record

Proceedings of the Council of the City of Pittsburgh

VOL. LXXV

Monday, July 7, 1941

No. 27

Municipal Record

ONE HUNDRED-FIRST COUNCIL

JAMES L. O'TOOLE, Jr.-----President

EDW. W. LINDSAY-----City Clerk

JAS. W. PATTERSON Asst. City Clerk

Pittsburgh, Pa.

Monday, July 7, 1941.

Council met.

Present Messrs.:

Demmler	Leonard
Duff	Weir
Evans	Wolk
Gallagher	O'Toole, (Pres't)
Kilgallen	

The Chair stated

That one of the members was leaving the City at 11:00 o'clock and desired to vote on the Smoke Ordinance, and if there were no objections the report of the Committee on Health and Sanitation would be considered at this time.

And there being no objections, Mr. Kilgallen presented

No. 3239. Report of the Committee on Health and Sanitation for July 1, 1941, transmitting an Ordinance to Council.

Which was read, received and filed.

Also

Bill No. 3093. An Ordinance entitled, "An Ordinance regulating the production and emission of smoke from any chimney, smokestack or other

source within the corporate limits of the City of Pittsburgh; regulating air pollution caused by the escape of soot, cinders, noxious acids, fumes, gases and fly ash within the City; regulating the importation, sale, use and consumption of certain fuels; regulating the construction, reconstruction, repair, maintenance, use of, and additions to, refuse-burning equipment and fuel-burning plants, including fuel-burning equipment and devices, and requiring notice to the City of all purchases and sales thereof; establishing a Bureau of Smoke Prevention; requiring smoke indicators or other approved methods of observing smoke from the boiler or furnace room; in certain cases establishing fees for examination of plans and issuance of permits, inspection of furnaces or other fuel-burning equipment or devices, and issuance of certificates of operation; establishing an Appeal Board, and providing fines and penalties for the violation of the provisions of this Ordinance."

In Health and Sanitation Committee, July 1, 1941, bill read and amended in Section 6 by striking out and by inserting as shown in red, and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Demmler moved

That the amendments of the Health and Sanitation Committee be agreed to.

Which motion prevailed.

And the bill, as amended in Committee and agreed to by Council, was read.

At this time President O'Toole called Mr. Wolk to the Chair.

And Mr. Wolk took the Chair.

Mr. Kilgallen moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Leonard arose and said:

Mr. Chairman, and members of Council, I wish to make a few remarks regarding Bill No. 3093. Under Section 2, on page 3 of the ordinance, the following appears:

"DWELLINGS.

1. For the period beginning October 1, 1941, and ending September 30, 1943, the provisions of Section 1 shall not apply to buildings used exclusively for private residences containing less than three dwelling units or flats.
2. For the period beginning October 1, 1941, and ending September 30, 1943, the provisions of Section 1 shall not apply to buildings used exclusively for private residences that do not contain a central heating plant."

I want also to quote from page 3 of the Smoke Commission's report:

"While it has been clear that there is an overwhelming demand in Pittsburgh for real smoke elimination, it has been equally evident that this is conditioned upon the qualification that it must not be done in a manner which will injure Pittsburgh as an industrial city; that it must not impose undue burden or expense upon the citizens, and that the great coal-mining business which is so important in the life of this city must be fully protected."

Now, Mr. Chairman, that is the one part of this bill I am interested in. The Smoke Commission speaks a masterpiece in that quotation. Protect this great industrial city of ours! Don't you gentlemen think we are being rushed too quickly on this bill? It is a very

important measure; I think the most important I have ever witnessed in my memory.

As for smoke prevention, I am one hundred per cent for any prevention that will not harm business or industry, or the people, especially home owners and renters of dwellings. Now in this bill I see danger in enacting at this time that provision making it effective for homes on October 1, 1943. We are passing on a theory, not a fact.

Let's get down to some figures. For instance, I quote from Real Property Inventory of Allegheny County, Bureau of Business Research, University of Pittsburgh, in 1937:

"Total number of family dwelling units, 154,074.

Families that use coal, 120,895; gas, 31,830.

In that number various kinds of heat are used:—hot air, 50,750; steam or vapor, 10,105; hot water, 15,831 and heating stoves, 73,650."

In Pittsburgh at the present time there are between 3,000 and 6,000 smokers in homes.

Now, gentlemen, we are all trying to help our city. Let's move carefully. We have the report of the Mayor's Smoke Commission to guide us, but we have only our minds with which to think of our people when we vote. If we pass this bill as it is, we are going to put a terrible burden of cost on the working class of people, the home owner and renter in this city. First, we do not know what the cost of processed coal will be. The Smoke Commission does not know. I will quote from page 19 of their report:

"EFFECT ON LOW-INCOME FAMILIES:

After considerable study and investigation the Commission has come to the conclusion that the smoke elimination plan would impose little or no additional burden on the low-income groups of the City.

Probably most of them would burn smokeless fuel, at least at the start of the program. It would cost more

per ton than the coal they are now using, and probably a little more per heating season, but the additional expense should be offset by direct savings resulting from smoke elimination—savings on soaps and cleansing powders, on garment cleaning, paint and wallpaper, and perhaps on doctor's bills.

The Technical Advisory Committee has estimated that the average stove-heated home uses about five tons of coal during a heating season. Coal prices in the low-rent districts were found to range from \$3.60 to \$5.00 a ton. It must be understood that the heating efficiency of \$3.60 coal will be considerably less than that of the more expensive fuel. So for purposes of comparison the present average bill of stove users is set at \$25.00 a year.

The price of smokeless fuel during the past heating season in the Pittsburgh area was \$7.50 a ton; and, as we stated earlier in this report, testimony has indicated that quantity production may bring this price down to about \$6.25. The smokeless fuel is more efficient than raw coal, various estimates indicating that only four to four and a half tons would be consumed by the average stove-heated dwelling during a heating season. Thus, at the \$6.25 price, annual heating bills would average from \$25.00 to \$28.12 or, at the most, \$3.12 more than the present cost of using the best grade of coal. If the above price of the smokeless fuel at \$7.50 is maintained, of course, the annual cost would range from \$30.00 to \$33.75, which would make the increase \$5.00 to \$8.75 a year."

I brand these as fictitious figures.

"However, there is a possibility that the difference would not be as great as the statistics indicate."

I assert they will be greater.

"Many of the low income families buy their coal by the bushel, and the Technical Committee says in its report that it has information which leads it to believe that the usual bushel of coal sold in the city is not

one of 80 pounds but one of about 45 pounds."

If this is true, the real price of by-the-bushel coal in Pittsburgh is around \$7.00 a ton, the report points out. That would make the annual heating cost with coal about \$35.00, or more than the highest estimated cost of using smokeless fuel—assuming, of course, that the alleged short weight practice is corrected."

I am not convinced that it will cost \$3.00 to \$8.00 per year more. I think it will cost much more.

Whatever the rush is to pass this bill like it is, is wrong. The Smoke Commission has done a great job and made an excellent report, and they should be commended highly, and as for the different organizations that sent in letters and resolutions for smoke elimination, how many have adopted them with respect to domestic users? I quote again from the Commission's report, on page 34:

"DOMESTIC USERS.

Single and double private residences together with stove-heated apartments will come under the law on October 1, 1943—a two-year period from the effective date. From that day forward, they also must either burn fuel with mechanical devices which prevent the emission of smoke."

We have been criticized for our smoke in Pittsburgh, but what has made Pittsburgh's smoke? Smoke from industry! History shows fifty years ago that many mills lined our three rivers. Many mills have moved down the river and to other towns and, as you all know, Pittsburgh would be better off if they were here. As for coal, some still use it. New mills are electrified. That has hurt business and labor. Twelve years ago Carnegie-Illinois electrified their Homestead plant, using no coal. They then tore down their mills in Pittsburgh. Jones & Laughlin built a new \$25,000,000.00 mill on Second avenue, using electricity, no coal. Carnegie-Illinois built the large Irwin Works strip mill, the largest in the world. It is electrically operated, using no coal. Carnegie-Illinois is expanding its mills in Homestead and Duquesne for armor plate—all electric, no

coal. Other mills later will do the same thing. The march of time will eventually knock out most of the coal in the mills and factories. After our National Defense program is over, there will not be work for all these mills, so in all probability the oldest mills will come down and new mills will be used for work done by the old ones now. All electric, no coal.

This is the workshop of the world. All of these electric mills have knocked out of work thousands of men, and we in Pittsburgh know that better than anywhere in this country.

Now we come to our next biggest industry—coal mining, which employs more men than our mills. If we curb coal with the home owner or domestic user, we will cripple this industry more than this city can stand. We will drive the domestic user and home owner to use gas. I say this from experience with the new homes. Most all homes being built by speculative builders today are gas-heated. If you read large advertisements in the Sunday papers, you will see gas does the four big jobs, not coal. The Government in its Defense Housing in Pittsburgh and Allegheny County, will use only gas for the 5,000 units, no coal. Then the home owner and domestic user will be at the mercy of the utilities.

Some of our labor organizations in Pittsburgh endorsed smoke elimination as a patriotic duty—they did not want to be blamed for smoke or smog. They are a large part of our taxpayers. I have talked to most of these leaders, and they do not want the coal industry crippled. They do not want to give a monopoly to a certain group of coal operators, that can produce processed coal. What will happen to the little operator; where will his market be?

In St. Louis, where they did such a fine job to clean up smoke, and also where the people cleaned them out for cleaning up smoke to the tune of \$2.50 to \$5.00 a ton more for coal, they did the same as we are doing if we pass this bill as it is. Wait until we find out what the people want and what it will cost them for coal. In St. Louis labor organizations endorsed smoke

elimination, but later were not satisfied. Stokers cost too much money. Some did not have it. As a result they had to buy processed coal, the cost of which was much greater.

Some of us speak of smoke elimination helping the National Defense program. In my opinion it will not, and it may hurt. It is surely going to hurt the home owner and renter. The National Defense program is going to last a few years. Prices are now high and are going much higher. All iron and steel that is used in the manufacture of stokers and so-called smokeless stoves are needed for war materials. So to enforce this law for domestic users will make an enormous expense for them.

Now, we might say it won't be effective for two years. But the pressure on people next, or this, winter will upset this entire city. Nobody knows the cost. We are making a bigger mistake than the Mayor and the Council of St. Louis made. When we started, we were all heartily in agreement that St. Louis made a mistake by not protecting the small home owner and renter. I say we are making a bigger mistake than St. Louis. They brought in there West Virginia and Arkansas coal and paid \$8.00 and more per ton. Here in Pittsburgh we sell processed coal for \$7.50. The Smoke Commission reports they may be able to get under that in mass production. Well, we can't be assured they may be able to get under that.

Another thing, we are passing a pig in a poke. There are not enough manufacturing plants to process coal, and there are not going to be enough in my opinion to supply the demand here. People taking out permits for new homes are planning to use gas. The gas companies want this—it is a great program for them but not for the middle class and working class people.

Everybody wants Pittsburgh cleaned up. The sun is shining today, there is no smoke, but this is summer time. Wait until the cold winter's here. Take places like Stanton avenue and Squirrel Hill, and go up there later on. Force them to put in \$400.00 and \$500.00 stokers. Stokers quoted for \$150.00 and \$130.00 may be a lot of bunk. I don't

think anybody will want to put them in their homes. This concerns the small home owner.

Maybe I am wrong, but when you are elected to City Council, you take an oath to administer what you think is right for the masses of the people. In my opinion this bill is unconstitutional. I am no attorney; I am a plasterer, but I say Section 4 is unconstitutional:

"SECTION 4.

It shall be unlawful to import, sell, offer for sale, expose for sale, exchange, deliver or transport for use and consumption in the City of Pittsburgh, or to use or consume in the City of Pittsburgh, any solid fuel for hand-firing or surface-burning types of equipment which does not meet the standard of a smokeless solid fuel as set forth in this section."

There are enough attorneys who know more law than I do. I say it is unconstitutional for the City of Pittsburgh to prevent anybody from selling coal in the City, no matter what kind of stove anybody has. I think that's one phase that should be discussed before you pass something that's unconstitutional.

Mr. Chairman, I think there are a lot of good ideas in this ordinance and in the report. As far as the Smoke Commission is concerned and sufficient inspectors are concerned, I am willing and I think I will probably vote for the ordinance creating that bureau. I think in the Golden Triangle all these inspectors are needed to clean up smoke hazards. I think some of the large apartment buildings and small factories could be encouraged to work under the proposed legislation, but as far as the domestic users are concerned, I am bitterly opposed to it at this time.

I don't think enough study has been made to take millions of dollars out of the taxpayers of the City of Pittsburgh, at a time like this, for greater cost for heat.

Mr. Chairman, I offer a motion:

To re-commit this bill in order to offer an amendment tomorrow in Committee to strike out the portion of the bill relating to domestic users until we know more about it.

The rest of the bill I am willing to go along with.

Mr. Gallagher arose and said:

Mr. Chairman, I second the motion to re-commit the bill as a courtesy to a fellow member of Council. I don't second the motion because I am opposed to the enactment of an ordinance to try to eliminate smoke in the City.

I think Council will recall when the question was first brought up in Council, I said I didn't want to do anything that would hurt the bituminous coal industry, which was the life-blood of the City of Pittsburgh. I was a doubting Thomas, like many others.

When Council agreed to go to St. Louis and see what was accomplished there, I was very agreeably surprised in what I found there. I made it my business to contact many people there in the lower income brackets, especially members of organized labor. I contacted the leaders of at least 120,000 organized workers in the City of St. Louis who were critical when the ordinance was first presented in that City, but they wanted to give it a trial and see what it accomplished, and after a year's trial the representatives of 120,000 workers were in favor of the law that was passed there.

We have been talking smoke ever since last February. The majority of the people in the City of Pittsburgh want to eliminate smoke, from a health standpoint and from many other points of view. I am just as much interested, as any other member of Council, in the lower income brackets. I don't want to do anything that will increase the cost of living to the people in those brackets. But I am firmly convinced, after the experience of St. Louis, that while in the beginning we will pay more for processed coal and installation of mechanical devices to eliminate smoke, after a fair trial and we have pointed out the savings, as pointed out in the report—back-breaking labor for the housewife, cleaning expenses, drugs and cosmetics—they will make up the difference in better living and in health.

I hope that makes my position clear. I am not in favor of rushing this thing, and that is why I am seconding the

motion to re-commit for amendment. No matter what the future holds in store, I am heartily in favor of elimination of smoke in the City of Pittsburgh. Mr. Kilgallen arose and said:

Mr. Chairman, a vote to send this bill back to Committee is a vote against the bill. We have gone before the people of the City of Pittsburgh with it, and we have been talking about it for six months; snow was on the ground in Pittsburgh when we first started discussing it, and here it is July. No one can properly and accurately say that this bill has not been given careful consideration. Any Councilman could have attended the Smoke Commission meetings—he could have heard the testimony presented; he could have known as much as your Committee knows, Mr. Chairman, and if any Councilman has failed to do that, and has given the matter careful consideration in the past two or three weeks instead of the past five or six months, the people of Pittsburgh will not accept that as a good argument for delay on the bill. The people expect us to pass this bill. We are practically pledged to it.

Mr. Chairman, we have all gone down to St. Louis and we came back to Pittsburgh enthusiastically for this thing, and we sat here five or six months while the press has favored this thing. Now at the barrier, when we are going to cast our vote, Yes or No, we run into this active, though sincere opposition, which we did not have at the last meeting. Correct me if I am wrong about it, but I think this is the first frontal attack on this matter. Haven't we sat around here months and nobody has actively opposed it?

What is the use of saying we favor the good points of the ordinance and not the bad? The people are going to judge us by our vote. After you vote, people are not going to accept your statement you think the good things are all right. They will tell you they are in favor of it, not against it, and I urge you to vote against this motion. Mr. Leonard arose and said:

In regard to my good friend, Mr. Kilgallen, I did attend some of the hearings. If you refer to me you

are all wrong. I have read everything I have been able to get my hands on. This bill was only in Committee ten minutes—it was my own fault I was absent—ten minutes in Committee. Now I have read this. I am sincere, very sincere on this thing. Nobody has a chance to digest a bill that is only in Committee ten minutes. The people, the home owners and taxpayers in the City, don't know yet what this bill is going to do. This is going to crucify the poor people in Pittsburgh and the home owner—when you put an additional cost of \$4.00 or \$5.00 on their life's savings, you are crucifying them at a time like this. They are going to put on drives and sales for stokers and smokeless stoves which are not manufactured yet. We are going on a theory. We are wrong if we pass this bill for domestic users. I say, amend it and take out the regulations as to domestic users.

And the question recurring on the motion to re-commit the bill to the Committee on Health and Sanitation, the ayes and noes were ordered taken, and being taken were:

Ayes:—Messrs.

Gallagher Leonard

Noes:—Messrs.

Demmler O'Toole

Duff Weir

Evans Wolk (Pres't

Kilgallen Pro tem.)

Ayes 2. Noes 7.

And a majority of the votes of Council being in the negative, the motion was rejected.

President O'Toole arose and said:

Mr. President:—I propose to vote for the bill for the same reasons I just voted No on the motion to re-commit. There are obvious imperfections in the bill, but they could not be readily ironed out in the very near future by its recommitment. In voting for the bill I am not deceiving myself at all. If the gentlemen say that the matter has been discussed for six months, they are guilty of gross understatement. It has been discussed for perhaps 150 years in Pittsburgh, and has recently been given more intense and perhaps more beneficial at-

tention. It might be we could discuss it for six more months and not be any closer to the right answer than this bill for which we are now asked to vote.

I agree with Mr. Leonard that those who labored earnestly are to receive the thanks of the citizens and the Council, and I say that, although I will at the same time insist that some of the things they did are not the things I would have done, and some of the recommendations they made are not the recommendations that I now would make.

Mr. Duff is a good lawyer and he will probably affirm that this is the law. When a trial judge is asked to rule on a motion for a new trial, he should not grant it because the verdict disagrees with what he would have decided, but should grant it only if the verdict shocks his conscience or is clearly against the law. I am in the same position. But this is only the first stop. I think the amendments Mr. Leonard suggests and other amendments to meet other difficulties should be forthcoming. No member of Council, and certainly not in this case, should close his mind to the possibility that he may be wrong, and that the bill should have early amendments.

One feature in particular that annoys me is the handling of the railroad question. I have a very strong sentiment for the railroads, which amounts almost to a prejudice in their favor. My father worked for a railroad for more than 50 years, one of the best railroads in the world, the Pittsburgh and Lake Erie Railroad. I myself have worked for a railroad and I know railroad men. There is none of them, from the crossing watchman to the Vice President in Charge of Operations who is not as anxious as any member of the Commission or of this Council to run his railroad properly. When they tell me as practical railroad men there is a provision which can not be properly met, I am inclined to believe they come into court as witnesses who are to be given a great deal of attention.

I say frankly, and this without reflection on the Commission, that their

handling of the smoke regulations as to railroads causes some doubt in my mind as to the soundness of some of their other recommendations. As I review the history of the case, a technical subcommittee made certain recommendations, after consulting with practical railroad men. Then the Commission, for some reason or perhaps arbitrarily, or because they didn't believe the subcommittee, took the advice of two theorists and imposed on the railroads, without giving them a chance to be heard, much stricter provisions.

I have here, and I believe the Chairman of this Council and the Chairman of the Smoke Commission have received the same, from St. Louis, from Tucker, the Smoke Commissioner there, a copy of a letter discussing regulations in which he refutes very definitely the statements made to us in Committee last week concerning the application of the law as to railroads in St. Louis, or that it is as our Commission now recommends we should impose.

I have before me another letter supplied by the railroads, in which the road foreman of engines in St. Louis, after consulting with Tucker, reports to his chief and he refutes the statements made to our Committee when we heard the railroads on this provision.

I don't know, but I am inclined to believe practical railroad men who, I believe, are conscientious about wanting to correct the situation, rather than two theorists who never drove a locomotive in their lives. If I owned a locomotive, I would rather put it in charge of a practical railroader than some theoretical expert. I am sure it would come back in better condition and do less damage to the populace.

I would like to see the attitude expressed by the Council and the Commission that no one considers this bill to be perfect and that their minds are open to early and immediate amendments.

I am seriously concerned about the objections Mr. Leonard raises about the small home owners. The City Council and the Commission are to be on trial two years before the small home owner

is reached. I say to you, if the City fails to regulate big consumers, the industrial, transportation and commercial consumers I, whether in or out of Council, will be one of the loudest in protesting against any effort to interfere with the small home owner, who undoubtedly is handicapped in some ways by this bill. Perhaps he is benefited in other ways.

As I sense the attitude of the members of Council, this bill is going to pass, but I don't believe that the splendid work of the Commission, nor in the vote of Council in passing the bill, nor in the act of the Mayor in signing it whereby it shall become law, we have achieved the millenium and that we immediately become competitors of Florida in selling sunlight. I am not going to rush out to buy sun lotion to protect my freckled Irish pelt from a sun which we now see for the first time.

We are placing in the hands of a local government an ordinance which will require great skill and integrity in enforcement if it is not to be a mockery. We place this ordinance in the hands of those who have failed to enforce the ordinance which we now have. Failed so completely that Council eliminated the highly-paid and part-time director engaged in a bootless task. Now we are turning to the same people an ordinance much greater in scope and give it to them with a challenge that it be enforced. We turn over to them an ordinance containing many matters of controversy, asking them to enforce it, knowing that they have not been able to enforce something as concrete and uncontroversial as a traffic ordinance. Perhaps there is some hope in that the able Commission that drafted this ordinance can remain in existence to compel its enforcement.

Optimism is lessened when I remember what happened to the Better Traffic Committee, when in their efforts to obtain enforcement and to bring up public opinion in support of their objective, their criticism became irksome to those in office, and the Committee was overriden and wiped out.

Shall that be the experience of this Smoke Commission if it dares to criti-

cize or to arouse public opinion? I trust not. I trust, Mr. Chairman, you will see to it that is not the history of this new Commission. But, after all, Mr. Chairman, we members of Council sometimes take ourselves very seriously when we pass laws. Sometimes the remedy is in the hands of the voters themselves. After all, when a situation such as I have just discussed, in which good laws are not enforced and in which those charged with certain duties do not discharge them, when that situation becomes bad enough, it can be corrected, as this one may be corrected, by the voters of the city themselves.

Mr. Wolk asked President O'Toole to take the Chair, and Mr. Wolk taking the floor, said:

Mr. President and members of Council, I didn't intend to speak on the ordinance today. I had thought that the opinion of Council and the public generally was so strongly in favor of this ordinance it would not be necessary for me to make a statement. At the outset let me say this. In confirmation of what you, Mr. President, stated, and as I stated in my letter to the Mayor submitting the report, experience will be our best teacher. We prepared this ordinance with the best information we had at the time. The Commission did its job earnestly and seriously with the object of ridding Pittsburgh of this nuisance.

It may be experience in the future may dictate changes, when experience shall dictate changes, we will be prepared to make those changes. We do not say this is a perfect ordinance. We believe we have done a creditable job in accordance with available information.

Let me first, Mr. President, answer the statement you made in regard to Mr. Tucker in his letter to Mr. Riddle of the Pennsylvania Railroad. Let me say right now it was unfair for him to misstate to Mr. Tucker that we had said in this Council that Mr. Tucker had sponsored that provision of the ordinance. It was physically impossible for Mr. Tucker to do so for the reason that, as Miss Alpern, who had the only

conversation with him, said, the ordinance was introduced on June 16th, and the conversation with Mr. Tucker took place on June 28th, and that conversation took place only because we were advised of the objections of the railroads. This provision about which the controversy has arisen concerning the railroads, takes effect in fifteen months from now.

If you have read reports of our technical advisory committee concerning the railroads, you will discover that the railroads offered very little towards the program of smoke elimination. Our technical advisory committee accepted the suggestion of the railroads with the addition that the railroads be restricted to five minutes of No. 2 smoke in fifteen minutes. Two railroads said they could not comply with this provision. In the final conclusions of our technical advisory committee, they stated that they wished to express a word of caution concerning the Commission's reliance on the conclusion stated in the report. They further stated "we recognize that both our data and conclusions are open to criticism by those experienced in the field of smoke abatement and we invite the Commission to submit them to the review of a consulting engineer in this field, if it so desires."

In pursuance thereof we did submit the conclusion on the railroads to two eminent scientists, Dr. Edward L. Weidlein, Director of the Mellon Institute, and Dr. H. B. Mellor, formerly superintendent of our Smoke Bureau, and head of the Air Hygiene Foundation at the Mellon Institute. Both these men have been active in the field of air pollution for years, and these men recommended the provision in the ordinance concerning railroads, which is now in controversy.

At the hearing requested by the railroads, they submitted a compromise which was stricter than the one that our technical advisory committee suggested. And if you read the report of our technical advisory committee your conclusion must be that the very provision that the railroads now offer in compromise, they stated they could not possibly comply with. And yet now they tell us that this compromise of-

fer that they could not comply with, they are willing to put in force tomorrow.

Now we didn't prepare this ordinance on the basis of what could be done tomorrow alone. We recognized that certain adjustments would have to be made, and we purposely staggered the provisions of this ordinance to give the various consumers, including the dwelling units, the opportunity to adjust themselves to the provisions of the ordinance. The provision in controversy concerning the railroads is Section 1—(b), which provides that when a locomotive is ready for service dense smoke shall be permitted for a period or periods aggregating one minute or less in any one hour. This provision does not go into effect for fifteen months, because we felt adjustments would have to be made. We expect the railroads to make a serious and sincere attempt to see if this provision of the ordinance can work within this fifteen-months period. If, after an honest attempt is made and the provision is found to be unduly restrictive, I would be the first one to lend a sympathetic ear to correct the error, if one had been made.

To indicate, however, to you that this provision of the ordinance may work, I want to quote from a speech of Mr. Riddle, the very man who talked to Mr. Tucker:

"Our greatest problem in smoke elimination occurs at initial terminals in the larger cities where, in many instances, sharp ascending grades are encountered almost immediately after starting from stations and as, in most instances, the locomotive has been standing coupled to the train for thirty minutes or more with no demands on the boiler except what little the air compressors might require, the result is that after starting, the boiler is required to respond from zero to practically full capacity in about two minutes of elapsed time and it is quite difficult to accomplish this feat without getting some smoke, and while, normally, we do not advocate a heavy or banked fuel bed, we do find that a coked fuel bed that lies dormant while the locomotive is standing and

one that can be stimulated and revived rapidly at starting time, does aid in keeping down smoke and I am advised that some of the lines here in St. Louis lay a heavy bed or fuel in fire box before starting fire at all and then start it in center where bed is left more thin for that purpose."

For further evidence that the provision may work successfully, I submit a quotation from the speech of J. E. Tobey, delivered at the recent convention in Atlanta, Georgia, of the Smoke Prevention Association of America:

"The railroads of Chicago have co-operated with the city smoke department to the extent that for years they have been using a very effective and successful plan for firing locomotives with mid-western coals. There the locomotives carry heavy banks in the fire box. These banks are not disturbed while the locomotive is in the depot. In fact, road locomotives operate to the city limits without disturbing the fire bed, or the addition of fresh coal. The heavy bank method is used to a greater degree in switching locomotives. Just recently this method was demonstrated in a switching locomotive where in a fireman placed 900 scoops of coal into a fire box in such a manner that the locomotive operated on switching service for five or six hours and gave absolutely smokeless performance."

Inasmuch as this provision of the ordinance does not go into effect for fifteen months, it seems no more than fair and just that the railroads should co-operate to the extent of making a serious and sincere attempt to comply with this provision.

Let me reiterate, we never said that Mr. Tucker sponsored this provision. We did say that it was originally recommended by Dr. Weidlein and Dr. Mellor. Mr. Tucker stated very emphatically that even under the provisions of the St. Louis ordinance, which permits one continuous minute, that the railroads in St. Louis practically make no smoke. Thus for practical purposes, they could comply with the provision in our ordinance if they make no smoke in St. Louis. Mr. Tucker in his letter to Mr. Riddle merely

doubted the enforcibility of our ordinance because our inspectors would have to follow the locomotive until it was outside the limits of the city.

An analysis of the St. Louis provision and the Pittsburgh provision, in my opinion, will clearly indicate that our provision is more easily enforceable. In the case of the St. Louis provision, which prohibits one continuous minute after the locomotive makes 59 seconds of dense smoke, doesn't the inspector have to continuously follow that locomotive to see if it ever makes one minute of dense smoke? But in the case of our provision, if the locomotive makes one minute of dense smoke at 3:00 o'clock, which is permissible, and then some other inspector at 3:10 o'clock discovers the same locomotive is making 30 seconds of dense smoke, that locomotive has violated the law, which would be determined upon the reports being filed. In other words, since the St. Louis ordinance theoretically permits 59, 59-second periods of dense smoke in an hour, it can be very easily realized how difficult it is to discover violations, unless the locomotive is continuously trailed. While in the case of the Pittsburgh provision, while trailing the locomotive would be more effective, yet it is not absolutely necessary because various inspectors at separate points could observe the emission of dense smoke and at what time it occurred, and after the reports were filed, they would indicate clearly whether a violation had occurred.

It is possible that experience would indicate that provisions in our ordinance are either too strict or too lenient. In either case, if experience so indicates, I know we will have the courage to make the necessary changes.

Time will not permit discussion in detail of all the provisions of this ordinance, and I do not think it is necessary. The entire matter has been fully and completely discussed for months in the newspapers and Council has had the opportunity to read the reports and the testimony submitted to the Smoke Commission. I wish I had here with me a copy of an advertisement which the Jones and Laughlin Steel

Corporation will place in "Time" magazine September 1st, and in "News Week" September 8th. I could use it as one potent argument for the passage of this ordinance. The main heading is "Smoke Enriches Our Lives—Defends Us."

I am just as much concerned about the man that lives in the home as any man in this Council, and if anybody has read the Smoke Commission's report, he could not have come to any other conclusion but that we were trying to work out a program that would cause as little disturbance as possible to all consumers of coal and particularly to the householder. The Commission spent considerable time investigating the effect that a smoke elimination program would have on the man in the low income group and the Commission stated that, while the cost per ton might be a little higher, the cost for the whole heating season would not be much higher because of the greater heating efficiency of smokeless fuel. But as against this small additional cost, the householder would save this amount many, many times over in soaps, cleansing powders, garment cleaning, paint and wall paper, doctors' bills and in many other directions.

Furthermore, the householder is not affected for approximately 27 months and we confidently believe that in that period of time progress will be so made in mechanical equipment and smokeless fuel that the householder will find that if there is a small additional cost it will be fully worth while because of the tremendous benefits derived. I desire to call to your attention further to a provision in the report which recommends a Consumers' Council, in order to protect the householder from any unjust rise in the price of smokeless fuel or equipment. I desire further to call your attention to the fact that the plan submitted by the Commission is substantially similar to that submitted by the coal operators, and if you read the coal operators' plan you will find that they assure us that a cheap stove for the low income groups to burn ordinary coal smokelessly will be on the market within a year. Let me

remind you, in the case of mechanical equipment, and stoves, smokeless fuel need not be used, but ordinary coal, just as at the present time, can be used.

Pittsburgh, as the President has said, has for over 100 years talked about smoke. Ten years ago perhaps we could not have done what we are doing today. Many people were of the opinion that smoke meant prosperity, but we know today that is not true. Smoke is absolute waste, and industry knows it. Furthermore, in the last ten years we have made great advances in the manufacture of by-product coke and low temperature coke, both smokeless fuels. All big users of fuel recognize that smoke is absolutely waste. And the J. & L. ad that will appear in "Time" magazine and "News Week" proves convincingly that the smoke that would ordinarily go into the atmosphere to cause ill health, is now conserved and results in the by-products of coal that, instead of harming mankind, now serve mankind in the form of food, medicine, clothing and numerous other things that are necessary for the welfare and well-being of mankind.

I may be a visionary, but I want to say to you gentlemen today, that there is enough information at hand to make this prediction that out of this smoke elimination campaign in Pittsburgh and in other cities, to which it will spread, there will come new industries so vast as to amaze you. I have read somewhere that the next age is going to be the plastic age. Pittsburgh lost the great automobile industry because it slept. Don't let us sleep now. A lump of coal we are speaking about is like Aladdin's lamp. When you rub that lamp, out comes a genie. You ask for something and you get whatever you request. Today in Pittsburgh, as the result of the process of roasting coal, making it either high temperature or low temperature coke, many by-products are obtained. In the future those by-products will be so extensive that our imagination today can hardly conceive it. Therefore, instead of hurting the coal industry, it may be the rejuvenation of what was formerly a stagnant

industry. Instead of hurting Pittsburgh, smoke elimination may cause it to become the center of new and vast industries. We have here the finest coal for this purpose. Pittsburgh has always been a capital goods industrial city with great periods of prosperity and great periods of depressions. But with the elimination of smoke, we will obtain new and diversified industries which will make our economic well-being more stable, give men work both in the mines and in the factories and at the same time, we will have a clean and healthy atmosphere.

Mr. President, as I said, I did not intend to make a statement, but in conclusion, I desire to say in all sincerity that we have attempted to prepare an ordinance staggered as to time so as to cause as little disturbance as possible, and I feel that if this ordinance is enforced and if we obtain the co-operation of the coal operators, as well as the consumers of coal, I feel confident that Pittsburgh will become one of the cleanest, healthiest and most beautiful cities in the United States to live and work in, and further that it will mean the rejuvenation of a great city, where new industries will be created, resulting in great economic benefits to all our citizens.

Mr. Wolk at this time resumed the Chair

President O'Toole taking the floor said: For the record, and perhaps you have already said this, can you as Chairman of the Smoke Commission make known to Council the attitude on the part of the Commission to recommend such, if any amendments, as may prove necessary?

Mr. Wolk said: I can't speak for the Commission, but I can speak for myself, and I think I have made my position very clear. Certainly if I ever thought any provision of this ordinance was wrong, I would have the courage to say so.

Mr. Duff arose and said:

Mr. President:—I don't think the question as to whether smoke is to be eliminated is a debatable question. I think the legislation simply concerns itself as to whether the proposed legis-

lation is oppressive in its operation. If it is, I am not going to vote for it; but if it isn't, I will. Looking over these provisions, I find in the main nothing oppressive. I do not think anybody has the right to pollute the air. provided the elimination of smoke can be prevented by the reasonable expenditure of a reasonable sum of money. I think modern discovery and modern science have developed a method of elimination of smoke and therefore I intend to vote for this bill because its provisions are not oppressive. If, in the operation of this ordinance, we find that by reason of actual conditions the cost of installing stokers or the cost of smokeless fuel will be unnecessarily high, then I put myself on record that I shall vote for suspension of the operative date of the ordinance.

There are two provisions on which my mind is not clear.

One of them is Section 1, Paragraph (b), insofar as its relation to the elimination of smoke for locomotives. We have had evidence before the Committee that that provision is not susceptible of compliance. If that be true, it ought not be enacted. However, insofar as the operative date of that Section is September of next year, I should think the matter could be taken care of by the introduction of an amendment so as to make its provisions a little more practicable and suitable to the operation of the railroads.

Another section, to which I have considerable objection, is the Section 3, that portion thereof which relates to fly ash. That's rather a big subject upon which Council has given no consideration whatsoever. It is not a matter of easy elimination—my idea is that it requires a huge sum of money and, inasmuch as we have a vast industrial concern in the City of Pittsburgh, I am not in favor of placing these industries under the obligation to expend large sums of money. My mind is open on that.

Therefore, I intend to vote for this bill. I put myself on record on those matters. I shall be ready to entertain an amendment to meet the conditions as they prevail.

Mr. Weir arose and said:

Mr. President:—I intend to vote Aye on Bill No. 3093. Like the other members of Council, I would like to state my position on the record. It is not my intention to impose an ordinance on the home owners and on the railroads which cannot be complied with. I believe, as our President said, amendments perhaps will be necessary, will in all probability be necessary. When that time comes I, as a member of Council or as a private citizen, will be one of the first to demand such amendments.

Mr. Evans arose and said:

Mr. President:—It is fruitless to take up the time of the Council on the most progressive step that has ever been made in this Council since I have been a member of it—a step towards the elimination of dirt and grime that has besmirched the face of our fair city and made her notorious all over the world as the Smoky City; a city of dirt and grime. It seems to me the members of Council should welcome the opportunity of at least taking a step to clean up the terrible reputation Pittsburgh has acquired all over the world.

As far as the railroads are concerned, I would be the first to entertain and listen to any reasonable argument in favor of amendment to this bill, and if I can be convinced that such is in order I certainly will vote for it. I think the railroads have given this city a dirty deal in more cases than one. They have cleaned up in Philadelphia, New York and all the eastern cities, and I think they have made very little attempt to eliminate smoke in the City of Pittsburgh. I believe if this ordinance is enforced, it will give them a strong impetus in the direction of the elimination of smoke which they are puffing out along their railroads throughout the city. I am heartily in favor of the ordinance, and I will vote for it and will do everything I can to see it is properly and fairly enforced.

Mr. Leonard arose and said: There is something I would like explained a little further, I raised the question about the unconstitutionality of this bill, with

respect to Section 4. How about an explanation?

Mr. Wolk said: The Law Department has passed on every section of this ordinance. If you want, we can call for the City Solicitor.

Mr. Leonard said: We live in America, "It shall be unlawful to transport . . ." What about inter-state commerce?

Mr. Wolk said: I answered the best way I know how. The Law Department sent this to Council.

Mr. Kilgallen said: This bill is sure to land in the courts. It will be tested and I suggest we now vote as laymen and let the lawyers fight about it later.

Mr. Leonard said: There are still a couple things I would like to get in the records. I think it was Mr. Duff, or Mr. Wolk, brought up the question of coal operators. There is one thing I would like to have clear in my mind before I vote one way or another. How much is it going to cost the coal operators to put in this by-product plant to process the coal, and who is going to pay it? Are they, or are the domestic users in Pittsburgh going to pay it?

Heating stoves bring up another serious problem. I say it is serious because there are more than 70,000 families in the city. It says in the report they are now trying to manufacture smokeless stoves. Do you know what it will cost the average family?

Mr. Wolk said: In the report of the coal operators, they said they felt confident they would have a stove within a year, and in accordance with their wishes you will note we have departed from the St. Louis ordinance by making that provision. St. Louis does not permit those stoves to be used.

Mr. Leonard said: Who made this report? Who are the big coal operators? Are the small coal operators in that?

Mr. Wolk said: Apparently that was the same group that appeared before the Commission. They represented 76 operators.

Mr. Leonard said: What I was trying to bring out is that the big operator is promoting this smokeless fuel idea. This is eventually going to put the small operator out of business. If you

dug for 50 years and didn't have the equipment to wash that coal, you would have to send it to the big operators to get the coal washed.

Mr. Wolk said: The report shows those operators were not for processing coal.

Mr. Leonard said: I have read the report and the ordinance is drafted from the report. I am trying to find out how much money this will cost.

Mr. Wolk said: The report shows this: "families of the low-income districts may be expected to acquire the new smokeless stoves."

Mr. Leonard said: That word "may" covers a multitude of sins.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Demmler

Duff

Evans

Gallagher

Kilgallen

O'Toole

Weir

Wolk (Pres't

Pro tem.)

Noes:—Mr. Leonard

Ayes 8. Noes 1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

At this time, President O'Toole resumed the Chair.

Bill No. 2816. An Ordinance entitled, "An Ordinance providing for a contract or contracts for the furnishing and installation for the Pharmacy and ventilation for the Boiler room at the Municipal Hospital, and for the payment of the cost thereof."

In Council June 30, 1941, bill read. Committee amendments agreed to, rule suspended, read a second time and laid over, and Law Department and the City Controller asked to report on legality of the bill.

Which was read.

The Chair presented

No. 3305.

Pittsburgh, Pa., July 3, 1941.
Council of the City of Pittsburgh.
Gentlemen:

Bill No. 3192. An Ordinance appropriating \$2,000.00 from Bond Fund 157, for furnishing and installing insulation for the Pharmacy and ventilation for the Boiler Room at the Municipal Hospital, has received an affirmative recommendation, subject to an opinion and report from the Law Department.

On June 23, 1941, this Department rendered a report in connection with Bill No. 2816, which authorized a contract for the furnishing of insulation for the new Municipal Hospital.

At that time, we stated that we were of the opinion that the legislation was legal. In conformity with the opinion heretofore given, it is the opinion of this Department that Bill No. 3192 is valid legislation and is, therefore, approved by this Department.

Very truly yours,

Wm. Alvah Stewart.
City Solicitor.

Which was read, received and filed.

Mr. Kilgallen moved

That the bill be laid over until the report of the City Controller is received.

Which motion prevailed.

The Chair presented

No. 3306.

Pittsburgh, Pa., July 2, 1941.

President and Members

City Council

City of Pittsburgh

Gentlemen:

I return herewith, unapproved, Bill No. 3094. I find, upon investigation, that the objectives of the ordinance were not discussed in a full meeting of the Pension Board, and until the Pension Board itself indicates its pleasure, I do not feel that this legislation should be put into effect.

Very truly yours,

Cornelius D. Scully.

Mayor.

Which was read.

Also

Bill No. 3094. An Ordinance entitled, "An Ordinance supplementing Ordinance No. 618, entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof,' which became a law January 9, 1939, as amended and supplemented, by adding a new section to be known as Section 11-A, Municipal Pension Fund."

In Council, June 23, 1941, bill read, rule suspended, read a second and third times and finally passed.

Which was read.

The Chair stated

If there were no objections, the communication and the bill would lay over for one week.

And there being no objections, the communication and the bill were laid over.

No. 3308.

Pittsburgh, Pa., July 1, 1941.

President and Members,

City Council,

City of Pittsburgh.

Gentlemen: In Re: Bill No. 3207.

At the meeting of the Committee on Finance, held July 1, 1941, Bill No. 3207,

"A Resolution transferring \$1,200.00 from Code Account No. 1332, Supplies, to Code Account No. 1335, Repairs, Mayview,"

was affirmed, subject to a report from the Budget Controller, as to whether these funds could be transferred from another account within the department.

I have checked the accounts at the City Home and Hospitals, Mayview, and find that the only account from which this transfer can be made is from 1332 as provided for in this bill.

I would recommend this bill be finally passed as written, transferring the sum from Code Account No. 1332, Supplies.

Respectfully yours,

Richard Neff,

Budget Controller.

Which was read, received and filed.

The Chair took up

Bill No. 3306. Communication from the Mayor returning without his approval Bill No. 3094, An Ordinance supplementing Salary Ordinance No. 618, which became a law January 9, 1939, as amended and supplemented, by adding a new section to be known as Section 11-A, Municipal Pension Fund.

In Council, July 7, 1941, read and laid over for one week.

Which was read, received and filed.

The Chair also presented

No. 3362.

Pittsburgh, Pa.

July 8, 1941.

Honorable James L. O'Toole, Jr.,
President of Council,
City of Pittsburgh.

Dear Sir:

At the next meeting of Council the following bill will be up for consideration.

Bill 3094. An Ordinance supplementing the Salary Ordinance by adding a new Section to be known as Section 11-A, Municipal Pension Fund. Under the terms of this ordinance, two employees of the Municipal Pension Board were added to the list of employees of the City of Pittsburgh. The positions transferred have been given the title of secretarial-bookkeeper at an annual salary of \$2,400.00 and an assistant secretarial-bookkeeper at an annual salary of \$1,500.00.

In connection with this bill we submit for your information, the opinion of Hugh C. Boyle, Esquire, the Solicitor for the City Controller, which is as follows:

"It is my opinion that the Municipal Pension Board, consisting of the Mayor, the President of Council, the City Controller, and two members elected by the City employees, has

the duty to appoint whatever employees are necessary for the proper administration of the Municipal Pension Fund. Neither the members of the Pension Board acting in that capacity, nor the persons engaged by them to perform the necessary work of the Board, are City employees.

It is my opinion, therefore, that the secretarial-bookkeeper and the assistant secretarial-bookkeeper of the Municipal Pension Fund, administered by the Pension Board, may not be added to the list of City employees."

Respectfully submitted,

EDWARD R. FREY,

City Controller.

Which was read, received and filed.

Also

Bill No. 3094. An Ordinance entitled, "An Ordinance supplementing Ordinance No. 618, entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof,' which became a law January 9, 1939, as amended and supplemented, by adding a new section to be known as Section 11-A, Municipal Pension Fund."

In Council, July 7, 1941, bill returned without Mayor's approval and laid over for one week.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were ordered taken agreeably to law, and were:

Noes:—Messrs.

Demmler	Weir
Duff	Wolk
Gallagher	O'Toole, (Pres't)
Kilgallen	

Ayes none. Noes 7.

And there not being two-thirds of the votes of Council in the affirmative, the bill failed to become a law, notwithstanding the objections of the Mayor.

Pittsburgh, Pa., July 11, 1941.

Committee on Public Works,
City Council,
City of Pittsburgh,
Gentlemen:

The City Planning Commission, at a meeting held July 8, 1941, considered plans for the improvement of Stockton avenue, between Federal street and Cedar avenue, the same having been transmitted to your Committee by F. M. Roessing, Director, Department of Public Works, by letter dated June 30, 1941.

The following action was taken:

"MOTION: That the Committee on Public Works of City Council and F. M. Roessing, Director, Department of Public Works, be informed that the Commission recommends the improvement of Stockton avenue, between Federal street and Cedar avenue, because of traffic increases and the recent development of nearby properties; that the Commission favors a plan shown as Department of Public Works Scheme 'A' in carrying out this improvement; and that the improvement include such landscape treatment as is deemed necessary by the Bureau of Parks. Which was read and referred to the Committee on Public Safety.

Mr. Gallagher presented

No. 3370.

July 14, 1941.

To the Members of Council,

City of Pittsburgh,
Pittsburgh, Penna.

Gentlemen:

My mother's home, namely 101 South 17th Street, is located on the corner of South 17th Street and Carey way, directly opposite the Hahn Furniture Store, which is bounded by Carson Street, South 17th Street and Carey way. In other words, the back of their store faces the side of our house, across Carey way, which is only 24 feet wide.

The Hahn Furniture Company have installed an Air Conditioning Apparatus in their store. The exhaust fan from this apparatus is located at Carey way, opposite our home and blows in on both our first and second floors. The air is dead, exhausted air, which is being expelled from the Hahn Furniture Company and blown into our home for our consumption.

There is no escape from this air since, as stated above, the distance between our home and the Hahn Furniture Store is only 24 feet, the width of Carey way.

The only choice we have is to shut up the house in this sultry summer weather or take the dead refuse air which is being expelled from the store.

This exhausted air is a menace to our health at such close contact; and, together with the constant whirring, wind-mill noise of the exhaust fan, constitutes an intolerable nuisance, the latter especially felt by one of the members of the family, who is a victim of high blood pressure.

This nuisance is altogether unjustified because this exhaust fan could just as easily be located at South 17th Street, a 60 foot street, or on Carson street which is much wider, and where the exhausted air could be widely diffused before coming in contact with people. In the case of South 17th Street, no homes would be affected on account of Roland street

entering South 17th Street, directly opposite the Hahn Furniture Company.

As it is, this intolerable nuisance is stuck right in the faces of home owners, where relief or escape is impossible. This is a menace to the health of my mother and her sisters who reside here and we ask you to compel the Hahn Furniture Company to re-locate this Air Conditioner or Exhaust Fan on South 17th Street or Carson street.

Your favorable action to this plea will be gratefully appreciated. Thanking you, I am

Very truly yours,

W. L. BEADLING.

Which was read and referred to the Department of Public Health for report.

Mr. Kilgallen, at this time, presented

No. 3371. RESOLVED, That the City Controller be and he is hereby authorized and directed to transfer the following sums, amounting in aggregate to \$27,000.00 from and to code accounts respectively set forth:

Which was read.

The Chair presented

No. 3495.

CITY CONTROLLER'S OFFICE

Pittsburgh, July 14, 1941.

Mr. Edward W. Lindsay,
City Clerk,
Pittsburgh, Penna.

Dear Sir:

We transmit to you herewith the opinion and report of the Controller's Solicitor, Hugh C. Boyle, Esquire, on Bill No. 2816, An Ordinance providing for a contract or contracts for the furnishing of insulation for the pharmacy and insulation for the boiler room at the Municipal Hospital, which was referred to the City Controller by the Council for report as to its legality.

Very truly yours,

J. J. SLOAN,

Secretary.

Pittsburgh, July 11, 1941.

Hon. Edward R. Frey,
City Controller, City of Pittsburgh,
City-County Building,
Pittsburgh, Pa.

Dear Controller Frey:

Communications from E. W. Lindsay, City Clerk, under dates of July 1st and 9th, 1941, relative to Bill No. 2816, pend-

ing before the Council of the City of Pittsburgh, have been referred to me.

I have examined Bill No. 2816 and the terms governing the General Public Improvement Bonds of 1941, out of the proceeds of which it is proposed to appropriate moneys for the payment of a contract obligation for furnishing and installing insulation for the pharmacy and ventilation for the boiler room at the Municipal Hospital.

The question involved appears to be whether or not the Municipal Hospital may be completed with money appropriated out of the proceeds of General Improvement Bonds of 1941 when a Peoples bond issue had been issued for the specific purpose of providing funds for the erection of the Hospital, which project was accompanied by a P. W. A. grant.

It is my opinion that the provisions or terms of the issue of the General Public Improvement Bonds of 1941, though broad, do not admit of a construction which would permit expenditures to be made therefrom for the completion of the Municipal Hospital.

I suggest, therefore, that we advise the City Clerk that the amount involved in the proposed contract for the insulation of the pharmacy and ventilation of the boiler room at the Municipal Hospital may not be made chargeable to and payable from Bond Fund 157, General Public Improvement Bonds of 1941 by the Council of the City of Pittsburgh.

Yours very truly,

HUGH C. BOYLE.

The Chair presented

No. 3499.

August 16, 1941.

Subject: GALLUPE HEIGHTS PLAN OF LOTS.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

We sent to Council for the meeting held August 11, 1941, Bill No. 3383, "An Ordinance approving the GALLUPE HEIGHTS Plan of Lots, etc.", and attached thereto the tracing of the Gallupe Heights Plan. This ordinance was affirmed at a meeting held August 12, 1941, by the Committee on Public Works. We received this morning from Willard H. Buente, Chief Engineer, Department of City Planning, the following letter:

"Mr. Benjamin Aires, Engineer, has requested the Planning Commission to reconsider the Gallupe Heights Plan in the 32nd Ward. The reason being that the Federal Housing Authority does not want to finance construction on certain 40 foot wide lots, as they appear upon the present approved plan. If 50 foot lots are substituted, loans can be secured.

"The Staff of this Department is therefore going to request the Commission to reconsider their action of April 1, 1941, approving this plan and request approval of the plan revised as outlined above.

"Therefore, we ask that you request City Council not to act upon the plan in its present design, when Council meets to consider it next Monday morning.

"After reconsideration by our Commission we will immediately forward the tracings of the plan to you in the usual manner."

In view of the above we respectfully request that Bill No. 3383 be deferred, and that the Gallupe Heights Plan be returned to this Department, so that the change requested by Mr. Buente may be made on the plan, after which the plan will be returned to Council for official action.

Yours very truly,

JOHN J. CROOK,

Chief Engineer, D.P.W.

For Director, D.P.W.

Also, with an affirmative recommendation,

Bill No. 3369. Resolution authorizing the Superintendent of the Bureau of Building Inspection to grant a building permit to the Pittsburgh Board of Public Education for the construction of a Vocational Shop Building to be located on the site of the Westinghouse High School, Twelfth Ward, Pittsburgh, Pennsylvania, based upon a design which complies with the 1941 Code of the American Concrete Institute; the said Superintendent being empowered to require such minor modifications and variations from the said American Concrete Institute Code, which, in the opinion of the Superintendent of the Bureau of Building Inspection, are necessary and proper in the interests of safety.

Which was read.

Mr. Leonard moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, resolution was read a second time.

Mr. Leonard arose and said:

Mr. President:—When I voted to return the resolution to Council affirmatively last week by the Committee I overlooked something in the resolution. For that reason, I am bringing it up today. This bill authorizes the Superintendent of the Bureau of Building Inspection to grant a permit to the Board of Public Education to construct a school building in accordance with the code of the American Concrete Institute. I was under the impression that we were granting a building permit under the same conditions that prevailed on the Municipal Hospital and another large building, the name of which I cannot recall at this time.

I particularly wish to call your attention to the language of this resolution. It reads, "the permit to be issued and the building based upon a design which complies with the 1941 Code of the American Concrete Institute." I don't know what that code contains. It might provide for a type of building which would not be acceptable to the city authorities.

For these reasons I am going to ask that the resolution be recommitted to the Committee on Public Safety for further consideration. I am leaving tomorrow for the convention of the Plasterers Union and will not return to the City for two weeks, so I will not be at the Committee meeting when this matter comes up. I believe the Board of Public Education should include in this resolution just what they propose to do. Mr. Evans explained the changes which they want in the present code, but I don't think that is sufficient. It is no different than a Labor Union coming here and asking us to adopt its Rules.

Mr. President, I move that the bill be recommitted to the Committee on Public Safety, and in the meantime the Board of Public Education be asked to state in writing or in person the changes which they desire.

Mr. Evans arose and said:

Mr. President:—I thought I made my position clear last week in committee when I explained what this resolution proposes to do. It merely allows the Bureau of Building Inspection to grant a permit to the Board of Public Education to construct a building in accordance with the code of the American Concrete Institute. The code used by the Bureau of Building Inspection is antiquated, it having been adopted some 30 years ago. Since that time great progress has been made in the development of concrete and its uses in building construction. Today a light concrete can be put in for the same floor load provided under our present concrete regulations. The reinforced concrete is poured in a more scientific manner. It reduces the weight of the floor. There is a committee, I believe, appointed by the Mayor engaged in revising the concrete code. This committee has not as yet submitted its report and findings. Because of this, on every building being constructed in the City of Pittsburgh there is a request for a change from the present concrete regulations. There is no danger of a building being weakened by the use of this new method, because it has been scientifically demonstrated that a building constructed under this new code is equal to a building using more concrete. I might state, to include the

code in this resolution, will require six or seven typewritten pages. It is a long code and was adopted after many years' study by men experienced in concrete construction. Many thousands of dollars have been expended on experiments, and it has the approval of those men engaged in the industry. If we don't pass this resolution, the Board of Public Education will have to erect its building under the old code, which of course will cost them a few thousand dollars more.

Mr. Gallagher arose and said:

Mr. President:—I don't think Councilman Leonard's request is out of order. He is much concerned about the change in the present concrete code and the adoption of the code recommended by the American Concrete Institute. After all Council will put itself in a position where they will establish a precedent. It might be more far-reaching than we realize. By postponing action on this bill for one week and in the meantime having the Board of Public Education make an explanation, seems reasonable.

The Chair said:

By unanimous consent, the bill will be recommitted to the Committee on Public Safety.

Mr. Leonard arose and said:

Mr. President:—As I explained before, I will not be present at the next meeting of the committee. Therefore, I want it understood that I don't want to be a party to holding up the construction of this new building. I believe the representatives of the School Board should be asked to come before the committee and explain what they propose to do. It is not necessary to include the whole code in the resolution, although I don't believe any harm would be done if we did include the code, consisting of six or seven pages. Mr. Stein, architect for the School Board, is a capable and efficient man, and I have all the respect in the world for him; but still I believe something more definite should be put before Council before we adopt this resolution. It is creating a precedent, as Mr. Gallagher has pointed out, and should it not prove efficient and economical, the Council will be held responsible for its shortcomings. Let Mr. Stein come in and explain the matter. I believe after he has made his ex-

planation and the council is satisfied it can then pass this resolution. Without this information, we may adopt this resolution and they can proceed to erect an icebox just so long as its construction complies with the code of the American Concrete Institute. Therefore, we should proceed slow in this matter. We have not had any experience with this type of construction before. It is something new.

Mr. Evans arose and said:

Mr. President:—I believe we can get Mr. Stein of the School Board to appear before the Committee to explain just what they propose to do under this new code. I would not attempt to explain the code. As I said before, it consists of six or seven typewritten pages, and it would be foolish to include the code in this resolution. I might state that it is a code used by all the large cities of the United States. Pittsburgh has been delinquent in adopting it. We have been adhering to a code which was adopted 25 years ago. I don't believe any great harm will be done by delaying action on the resolution for a week, and in the meantime we can have Mr. Stein appear before the committee for an explanation. However, I want to admonish the Council that the School Board can not complete its plans until they have a decision on this request.

The Chair said:

Mr. Evans, then you don't object to recommitting this resolution to the committee?

Mr. Evans said:

No, sir.

The Chair said:

There being no objections, the resolution will be recommitted to the Committee on Public Safety for further consideration.

Mr. Kilgallen presented

No. 3613. Report of the Committee on Health and Sanitation for September 3, 1941, transmitting two ordinances to Council.

No. 3640.

OFFICE OF THE BUDGET
CONTROLLER

Sept. 13, 1941.

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 3595.

Gentlemen:

At the meeting of the Committee on Finance, held September 10, 1941, Bill No. 3595 was affirmed subject to report from the Budget Controller.

This bill is an ordinance for warrants in the total sum of \$14,193.20, as follows:

Due to the inability of the Department of Public Welfare to obtain bids on the purchase of woolens for the Sewing Project, the Director was given authority by the Committee on Finance to purchase woolens on the open market in New York City. This was done and the amount of woolens purchased amounts to \$13,827.51.

The sum of \$159.00 is for the rental of a gasoline driven hoist, made necessary because the hoist at the coal mine was old and out of commission, and pending the arrival of a new hoist, it was absolutely necessary that the department rent a hoist until the new hoist arrived.

The sum of \$204.31 is for the purchase of clothing for patients in out-of-town institutions and is a legal obligation of the City.

The sum of \$2.38 is for the repair of a pair of clippers which had been repaired, and were immediately broken by a mental patient and was necessary that these be repaired immediately.

From the foregoing facts which all have been investigated, I would recommend this bill be passed.

Respectfully yours,

RICHARD NEFF,

Budget Controller.

PRESENTATIONS

The Chair, at this time, presented
No. 3646.

CITY OF PITTSBURGH

Office of the Mayor

September 22, 1941

Honorable James L. O'Toole, President,
The City Council,
City of Pittsburgh.

Dear Mr. O'Toole:

Last night Mr. Bernard Mazon, President of Local 249, International Union of Teamsters, Chauffeurs, Warehousemen and Helpers, requested me to arrange a conference between representatives of his Union, the City Council and myself.

In pursuance to his request, I telephoned you and we agreed that such a meeting should be held at the close

of Council's session today.

I have accordingly asked Mr. Mazon and his associates to be here at 11:30 A. M., in the expectation of such a conference, which I suggest should be held in Council Chambers.

Very truly yours,

Cornelius D. Scully,
Mayor.
